Women's Volley Ball Group Is Organized

A woman's volley ball group has been organized to meet in the gym on Friday evenings at 7:30 o'clock. All women of the community interested in the game are invited to join the group, which is a project of the Recreation club.

The Recreation club is a civic minded group interested in wholesome recreational opportunities for all ages but especially for youth. Any contributions from individuals either in equipment or cash, will be gratefully received, as was the punching bag and frame recently donated by Mr. Fred Hotopp.

Childerley Youth Hostel Opened In Wheeling

The Childerley Youth Hostel of Wheeling, this week received its official AYH Charter for 1940 from the national headquarters of American Youth Hostels, at Northfield, Massachusetts.

Mr. and Mrs. Ed. Lee Carpenter, houseparents of the hostel, are preparing for a busy season. Last year they had 68 overnights; hostellers from 3 states and 1 foreign country, England.

This hostel is one of 52 hostels in the Great Lakes region, in which were registered 2,934 overnights during 1939, according to Justin J. Cline the AYH field worker for this region. Neighboring hostels are located at Dundee and Waukegan.

Hikers, bikers, skiers, boaters — all who travel under their own steam — are welcome at youth hostels, which are generally situated about 15 miles apart along hiking or biking trails and waterways. Hostels are, for the most part, located on farms where the farmer and his wife have converted a barn or extra space of the house into bunkrooms and recreation rooms, and act as "houseparents" to the traveling youth.

Besides the AYH pass, the hostellers need bring only a sheet, sleeping sack, and plate, cup, knife, fork and spoon. The hostel provides beds, blankets, and heavy cooking utensils. The charges are twenty-five cents for overnight and five or ten cents for fuel.

Most hostellers budget themselves to one dollar a day for food and overnights. The AYH pass, which is recognized by 4700 hostels in 18 countries, cost \$1 for those under twenty-one, \$2 for those over twenty-one.

The Wheeling school board, as representatives of Wheeling School District No. 21, wish to publicly express their appreciation of the more than generous donation of Six Thousand Dollars by the Wheeling Chamber of Commerce toward the building of our school gymnasium and Community Center building.

Four thousand dollars cash was donated May 1, 1937, and a pledge of two thousand dollars to be paid in four years.

The final payment of the \$2,000 pledge was paid last December 1 one year in advance of date due. This advance payment during this financial upset of the entire world, is more commendable than words can express, so we just merely say thanks, boys.

Train Load of Meats in Wreck at Wheeling

Shipment For Export Trade; Comes To Grief Before Entering War Zone

A trainload of meat from Minneapolis for export trade came to grief before it had hardly started on its journey and before entering the dangerous war zone.

A broken car wheel derailed eleven Soo Line freight cars and sent six of them into the ditch at Wheeling Tuesday afternoon. The remainder of the 47 cars remained on the track. The entire train load comprised a single meat shipment bound for New York for export.

While some of the cars thrown into the ditch broke open a quickly formed corps of guards kept spectators from helping themselves to the "harvest" of meat of every kind and description.

The accident occurred at 10:48 and is presumed to have been caused when a car wheel hit a switch in such a manner that the car wheel broke. One third of the train passed safely over the switch.

Large numbers of spectators hurried to the scene, but the meat was saved and is now on its way to "some where" in Europe.

Friday readers of the Herald are reminded that this is the last evening to see "The Antics of Andrew" at the Community gym. If you missed out on Thursday evenings performance, be sure and go and get your share of laughs tonight.

The community at large also owes a vote of thanks to the Chamber of Commerce for their generous share in this valuable community enterprise. The hall has been used by many groups and will increase in serving the community, as ways and means for sponsoring a wider range of activities are arranged.

The Wheeling fire department was among the departments called to the scene of the fire which destroyed the Hirschberger implement store at Prairie View on Sunday. Due to the great headway of the fire and lack of water, the departments could do little but protect neighboring property.

The business meeting, however, will not be called until after 8 p. m.

Mrs. Jacob Schwingel

Bertha Huhn was born on August 17, 1860 in Chicago, where she lived until their home was destroyed in the great Chicago fire of 1871. The day after they lost their home, her father came to Deerfield, where he engaged a teamster to drive to the city, and move his family to a farm near Deerfield, now the Deerfield country club.

On Dec. 3, 1878, Bertha Huhn was united in marriage with Jacob Schwingel, who preceded his wife in death on Dec. 26, 1931. Twelve children were born into their home, three of whom preceded their parents in death, two in infancy, and one, Edward, in adulthood.

The family moved to Wheeling about 1887, which has been the home of the deceased, almost continuously since. Three years prior to Mr. Schwingel's death, the couple celebrated their 50th wedding anniversary. Mrs. Schwingel was a member of the Presbyterian church, and the Ladies Aid Society, and Wheeling Chapter O. E. S. Although she was confined to a hospital several years ago, she regained her health sufficiently to live alone, as she preferred, until stricken several weeks ago, when she was taken to the home of a daughter, Mrs. T. E. Russell, of Highwood, where she passed away on Tuesday, Jan. 30, at the age of 79 years and 5 months.

Library Reports Progress; Popularity In New Books

A meeting of the library committee was held last week. The volunteer librarian, Mrs. D. C. Morrison has made fine progress in recataloguing the books according to the standard used in all leading public and college libraries. This in itself adds to the educational value of the local library.

Books were sorted out that require mending and a meeting for that purpose will be called in the near future. The librarian reported an average of about 20 books taken from the library each week, which is a good beginning for a small library.

Valentine Dance Has Unusual Program

The Valentine party and dance held at the community gym by the Recreation club last Saturday evening was a decided success socially.

A combination of circumstances which held down the attendance, prevented the affair from being as great a financial success as was hoped for by the club. However, in view of the generosity of the program of the evening which entailed a considerable expense, it was heartening to know that the obligations were more than covered.

Music was furnished by Hony's orchestra of Northbrook, composed of Clarence Honeman saxophonist, Clifford Robinson, drummer, and Carl Kinley, pianist. Members of the Recreation club served as hosts and hostesses for the evening.

A shower of balloons and snowballs converted the floor into a miniature battle field with casualties confined to the balloons. Another special feature of the evening was an elimination waltz in which the lucky couple were Mr. M. C. Balling and Miss Marcella Johnson, who received attractive gifts as their prize. All present participated in a grand march when party caps were distributed and the march concluded in the basement where refreshments consisting of cake and ice cream were served free to all guests.

The third and final Wheeling goal was made on a sole dash by Dick Utpadel. Dick started down the right side and outskated, outmaneuvered the entire Arlington team and beat Goalie Simon from ten feet out.

Feature of the game was the good defense work on the part of Oscar (Eddie Shore) Laurance, who dealt out body checks to men who outweighed him by fifty to seventy pounds; also a fine performance was again turned in by Goalie Rutkofski, who continues to amaze friend and foe alike by many leaping and spectacular saves of sure shots by the strong Arlington team.

Thief Enters Church To Steal Men's Coats

"The better the day, the better the deed" is not always true. At least the Messrs. Fred Lemke and Henry Grandt have not felt any better about losing their best overcoats, knowing that they were stolen on Sunday from the basement of a church.

The men with their families were attending the regular services at St. John's Lutheran church south of Wheeling last Sunday and along with other men of the congregation they hung their overcoats and hats in the basement. On reaching for them after the service all they found was their hats.

The coats were both comparatively new and the thief evidently took his time in making the selection, for a considerable number of other coats were passed by. It would seem quite likely that the coats are in the hands of a second-hand dealer by now.

The loss was especially aggravating to Mr. Grandt who happened to be carrying all his keys, car papers, etc. in his overcoat pockets that day.

Whether or not the pastor touched upon this particular text, these gentlemen experienced an unpleasant object lesson of the truth in the Biblical injunction, "Lay not up for yourselves treasures upon the earth—where thieves break thru and steal."

Thief Enters Church To Steal Men's Coats

"The better the day, the better the deed" is not always true. At least the Messrs. Fred Lemke and Henry Grandt have not felt any better about losing their best overcoats, knowing that they were stolen on Sunday from the basement of a church.

The men with their families were attending the regular services at St. John's Lutheran church south of Wheeling last Sunday and along with other men of the congregation they hung their overcoats and hats in the basement. On reaching for them after the service all they found was their hats.

The coats were both comparatively new and the thief evidently took his time in making the selection, for a considerable number of other coats were passed by. It would seem quite likely that the coats are in the hands of a second-hand dealer by now.

The loss was especially aggravating to Mr. Grandt who happened to be carrying all his keys, car papers, etc. in his overcoat pockets that day.

Whether or not the pastor touched upon this particular text, these gentlemen experienced an unpleasant object lesson of the truth in the Biblical injunction, "Lay not up for yourselves treasures upon the earth—where thieves break thru and steal."

School Children Present Essays at PTA Meeting

The February meeting of the P.T.A. held on Monday evening proved to be outstanding in interest. The business meeting was cut short to make way for the program of the evening, which opened with the reading of essays on Washington and Lincoln by upper grade children.

The essays were written as a part of a contest in which two children from each of the four upper grades, a boy and a girl, were selected by their teachers to present their essay at the P.T.A. meeting.

Those selected were Grade 5; Joan Nielsen and Buddy Wieder; grade 6, Peggy Kruse and John Miller; grade 7, Betty Jane Graff and Billy Lee; grade 8, Charlotte Slottag and Edward Welflin. A committee of three, consisting of Mrs. E. L. Carpenter, Mr. E. J. Costello and Mr. F. Reed served as judges, selecting the best essay from each room. The two winners were Edward Welflin from the 7th and 8th grade room and Peggy Kruse from the 5th and 6th grade and it was their privilege to present Carl Sandberg's two volume set of books on Lincoln entitled "The Prairie Years."

The children did well and were all complimented by the judges who expressed the difficulty they experienced in selecting the two to be the winners. Before introducing the speaker of the evening the meeting was led in the singing of America the Beautiful. Peggy Kruse entertained with a solo "God Bless America."

Mr. Ellwood, a local P.T.A. member, who is doing graduate work at Northwestern university, was the speaker and gave a thought provoking talk on the subject "Democracy and Education." He raised the question as to whether or not the American educational systems have been democratic enough in technique to prepare young citizens to participate intelligently in a Democratic form of government.

The program closed with the singing of the national anthem. Refreshments were served by four members of the P.T.A. and the meeting closed in a social manner with jokes passed back and forth over the coffee cups. But to get on the "fun" you must attend.

Owner of 'Blumenau' Estate, Gustave Tilgner, Dies; 93 Years Old

Chicago newspapers recently carried the obituary of Mr. Gustave Tilgner who passed away Feb. 10 at the age of 93 years. Old time residents of Wheeling Community remember Mr. Tilgner for his show-place country estate known for many years as "Blumenau."

Mr. Tilgner was a pioneer Chicago manufacturer, having emigrated from Germany in 1868. Among his former local real estate holdings were the farm now owned by Mr. Robert Allison and the E. J. Friends here were sorry to learn of the misfortune of Mr. and Mrs. Ray Horton, who lost their three week old daughter, Arlene, who passed away in a Burlington hospital. The baby was born with an intestinal obstruction of a rare nature. An operation was performed but proved unsuccessful, as the little life slipped away so soon after birth. Old Blacksmith Shop Building Is Razed

An old land-mark has disappeared from Wheeling, with the razing of the Metz blacksmith shop recently. The sound of the clanging of the anvil proclaiming the important contribution of the shop to the industry of the community, and the recounting of Civil War experiences with his comrades by the smithy, Wm. Metz, during rest periods, have long since been stilled.

The old building was recently condemned by the State Fire Marshall and was ordered torn down by the owners, the children of Mr. Metz. Mr. Paul Kessro, tenant in the Metz house, had charge of wrecking the building.

Characteristics Of A Good Modern School Told At P.-T. A.

"The Characteristics of a Good Modern School" was the title chosen by Dr. Walter Anderson of the Dept. of Education of Northwestern University, for his address to the P.-T.A. assembly on Monday evening in the Wheeling school. Dr. Anderson introduced his subject by presenting a series of reasons why the good modern school must depart from standards considered good fifty years ago as follows:

Changing times and conditions in which many of the skills formerly taught in the homes, are now passed on to be taught in the schools; the present recognition of differences in children as unique individuals; progress in understanding children and the ways in which real learning takes place, which recognizes such factors as attractiveness of surroundings, interest begets effort, purpose for learning, teacher and pupil planning, carrying out the plans and evaluating them on completion, in brief the acceptance of the fact that the pupil truly learns as he truly lives.

The characteristics then, for a good modern school, according to Dr. Anderson, should include the best possible place a community can provide for its children; the best possible teachers it can afford; a wealth of useful equipment such as our homes cannot afford; the emphasis of growth along many lines; the good school develops the fundamental skills; it does not fail children repeatedly.

It develops good citizens as it practices democracy; it works in close cooperation with the home; it teaches children to think for themselves and direct their own lives in an orderly fashion to the end that the coming generation of adults may direct the destiny of the nation more ably than did their parents.

Dr. Anderson asked for a more hearty support from parents in helping their school to develop their characteristics. The meeting was also addressed briefly by Mrs. Allen, the district representative of the National Congress of Parents and Teachers who attended the meeting unexpectedly. Refresh-

confirmation experiences of the younger daughter, Margaret.

Discuss Uniform Building Code

Forty representatives of towns in the suburban area of Chicago, met at Evanston last Friday for the purpose of discussing some sort of a uniform building code.

The uniform building code used by a group of cities on the Pacific coast and one used by some of the eastern cities were discussed and their good points pointed out.

A government official addressed the meeting pointing out that the cities should be careful as to what kind of ordinances were passed so as to be sure there was nothing in the ordinances which would violate the law by restricting the uses of materials or the promotion of some materials at the expense of others.

After an afternoon discussion, committees were appointed to go into the subject of a uniform building code for cities of this area, these committees to report at some future meeting.

11 Scouts Find 'Camping Out' Is A Lot of Fun

Eleven members of Troop 18 Boy Scouts of Wheeling were among the scouts who spent last weekend at Camp Dan Beard, going on Friday evening and returning home Sunday evening. The boys were accompanied by their scoutmaster, Mr. James Neagles Jr., excepting for a period on Saturday when Messrs. D. C. Morrison and F. Sattler, members of the troop committee took the scoutmasters place.

The boys shared responsibilities for conducting the camp, even taking their turns as chefs, and they didn't go home hungry. At least they shouldn't have, with a Sunday dinner menu including pork sausage, potatoes, spinach and rice pudding with raisins.

On Friday night little sleeping was done by any of the scouts, but Saturday night found them ready for a sound sleep which carried them right through reveille on Sunday morning.

As a result the boys were not awake early enough to attend Sunday school as they had planned, but instead they accompanied their scoutmaster to the morning church service.

Wheeling Board To Apply To WPA For Sewer

The April meeting of the Village Board took place Monday evening with all members present. Fines reported during the month were \$35.00. The week of May 6 was designated as Clean-up week. Trucks will be provided for picking up rubbish on the mornings of Tuesday, May 7 and Friday, May 10.

Action was taken to raise the tavern license to \$200.00 per year to compare with the county license outside of villages. With pressure still being brought to bear on the sewer question by the state, the board was reminded that only a short time remained to apply for W.P.A. aid and for such a project.

The board decided to authorize the firm of Suhr, Peterson, Berryman & Suhr to prepare a W.P.A. application for the construction of a sanitary sewer and disposal plant with the understanding that the village will not be obligated for any fees unless said project is approved by W.P.A. and is constructed in accordance therewith.

A complaint was presented to the board concerning careless driving by local motorists, especially in the use of the alleyway separating the Masonic hall and the bank building. The matter was referred to the police chief.

Are You Mothers Looking Out For The Health of Your Child?

Whether or not a Child Health Station for Wheeling and the surrounding community is maintained will depend upon the mothers of small children.

The County Rural Welfare Department offers this service to communities where an average of twenty children are brought for examination monthly. There might easily be that number of young children benefit by the Health Station in Wheeling, if families in the village and farm community including surrounding school districts concerned themselves sufficiently in their children's health to bring them to the station.

The next meeting will be held next Wednesday afternoon, April 10 from 1 to 3 p. m. Community minded people assisted by the Rural Public Health Dept. of the county helped to establish the station here. Mothers of children under six, from now on you are the only ones who can keep the station in operation.

by twenty-five drivers. The purpose of the meeting was to encourage more careful driving on the village streets.

The chief gave a good common sense talk from which all drivers of cars could profit. Points especially emphasized were:

Keep your car mechanically safe, watching your tires, lights, windshield wipers, brakes, etc.

Never pass on a curve or crest of a hill.

Regard stop signs, stop and go lights and danger signals at all times.

Always signal before making turns, slowing down or stopping.

Regulate your speed by the condition of the roadway, traffic, light and weather conditions.

Give the pedestrian benefit of the doubt.

The chief of police asked for closer cooperation from all local drivers in obeying traffic regulations. Unless people in the village are willing to set an example, it is not fair to expect our police force to penalize transient motorists. Let's all get behind our police and help keep our town safe.

A Show of Champions—the only way to describe the show that is going to be put on at Arlington Heights sponsored on May 10 under the sponsorship of the Arlington Redwings ball club. A list of the fighters will demonstrate their fighting that night was released this by the C. Y. O. officials. Or fighters who are nationally in the amateur ranks.

Usually only one champion lines a show but in this particular show every bout will have a title holder. The most famous of the boys who can throw the cut punch is Harold Dade of Golden Gloves and Tournament Champions titleholder in the class.

Ray Brown, another Golden champion this year in the division, will be on hand to why he ended on top of the canvas. The challenger is Isaiah Wells, who was the best 160 pounder in the name of Champions, and Y. O. champ, aiming to add a victim to his list which already carries many of the best fighters throughout Chicagoland.

Harry Sparrow in the 125 lb. group battled through a field and finally lost the final in the Tournament of Champions to the Canadian who went on to capture the inter-city title in New York and then the International Title from the European champion.

Arlington fans will have a chance to support Henry Nichols, a local boy, in a 118 lb. bout with Henry Vera who was the 1939 Golden Glove champ in 1939. Nichols believes that he will be able to do away with Vera although the latter has more experience and title on his shoulder.

This impressive list of fighters indicates the type of entertainment which will be assured, and seldom that a card having as many top flight fighters is arranged. C. Y. O. officials agreed to give Arlington fans 8 feature fights instead of one or two.

Thousands of Chicago fans will pay high prices to see these same fighters in action during the winter.

These have offered a variety of entertainments including movies, concerts, suppers, dances, agricultural demonstration, card parties, amateur dramatics and school programs.

Apart from the public school programs the pupils of the four upper grades used the gym daily for game periods through the winter months, and the school team also used it for basketball. Pupils of the first four grades spent two periods of supervised play in the gym each week under the direction of their teachers.

The gym has been in use eighty-five evenings since October as follows: Basketball 17, volleyball 22, Badminton 9, directed recreation 19, public functions 18. An average of 125 persons participated regularly in the weekly groups. The volley ball group began as a married men's group playing on Friday evenings. By the end of the season the wives and children had joined the group making it a family night, dividing their time on the gym floor and the basement game room.

The recreational program was

substantially increased this season through the efforts of the newly organized Recreation club. The club raised a total of \$350.00 during the season for the advancement of a community recreational program. \$150.00 of this came from donations from individuals and groups and \$200.00 was raised through public entertainments sponsored by the group. The club also purchased the following game equipment: Soccer ball, indoor ball, hand ball, two table tennis outfits, equipment for two shuffleboard courts, four tumbling mats and equipment for two double badminton courts. Although the net proceeds of the club's masquerade are not yet determined, the club expects to close the season with a sufficient balance, to launch a similar program next fall.

Improvements in the building provided this year by the Community Board in cooperation with the School Board and groups using the hall are the installation of a drinking fountain, improvements of heating system, detachable footlights, purchase of card and banquet tables, installation of gas stoves and sink and shelves for the public library.

The public library is also new this season, having been open each Wednesday evening since November 1. An average of eighteen books have been taken out each week. Thirty-

five books were checked out one evening recently which shows a growing interest in the library. The library is under the supervision of the community center association, but is housed in the school building. Summer library hours will be announced as soon as the schedule is determined by the library committee.

League Leader Tells of Work Among Homeless

Madison-Halsted Street Area Is Center Of Mission

Those who attended services at the Presbyterian church on Sunday morning and evening were privileged to hear of the redeeming power of the gospel of Christ as it ministers to the "forgotten" men of Chicago thru the Chicago Christian Industrial League.

The Rev. Wm. Seath, who is superintendent of the League, told of case after case of broken men who have been lifted out of blackest despair and sometimes the very jaws of suicidal death, in his message to the congregation at the morning service. At the evening service three of the men who have been reborn at the League to a new life of usefulness for God and their fellow-men were present to give their own stories.

The League is located at the heart of the Madison-Halsted st. area where 50,000 homeless men gather and is the largest rescue mission in Chicago and one of the most efficient in the country.

The League maintains that the Gospel of Christ must be the basis of any successful program of rehabilitation. It also believes that it is folly to attempt to prove to men that God loves them, and yet fail to demonstrate that love by a deep concern for their physical well-being. Because of this the Gospel message is "backed-up" by the giving of food, shelter and other material service.

Through its industrial division about 125 men find work suitable to their previous training, and also provides 85% of the financial support of the League. Work of this kind awakens ambition and desire to regain their skill and increases their self-respect as they live at the League until ready to take their place back in society. The average time spent as residents at the League is six months. Work provided by the industrial department of the league consists of the collection, reconditioning and sale of discarded materials donated by generous friends of the league.

Residents of Wheeling have been contributing to this work since one of the trucks from the League has been coming here periodically the past six months and the Rev. Mr. Seath expressed his gratitude for our cooperation. We feel it is a privilege to have a share in the reclaiming of men for God and their fellows.

The League makes use of practically any kind of discarded materials including clothes, dishes, books, papers, tools, furniture, etc. If the truck does not stop at your home and you have something to give them, notify the local pastor and he will gladly direct them to make the pick-up.

July 5
Wheeling Days
Planned July 20-21

Now is the time to be a booster for the 13th Annual Wheeling days which are being held Saturday and Sunday evenings, July 20 and 21. Invite your relatives and friends to come to Wheeling for a good time that week-end.

A variety of attractions will be offered for entertainment. Four grand prizes will be raffled off, besides many small prizes. Music for dancing will be furnished by Frederick's orchestra of Arlington Hts.

The Chamber of Commerce and Volunteer Fire department are the joint sponsors of the celebration, but they need the help of all in the community to make it a real success.

The proceeds have always been used largely for projects which benefit all, of which our Wheeling community hall is the outstanding example. Volunteer your service now both as a promoter and worker on the grounds.

Fishing Good In Wisconsin, Wheeling Vacationists Find

Fisherman's luck continued to be good for Wheeling vacationists in Wisconsin last week. Mr. and Mrs. Ray Lesch and Mr. J. Wick returned from Eagle River on Friday evening with a catch of two muskies, twenty-six northern and wall-eyed pike and one croppie. The croppie was especially included among the catch which they brought home because of its size, measuring 15 inches long and five inches wide. The largest muskallonge measured 37 inches in length and weighed 15 pounds, the other was a little smaller weighing about 12 pounds.

Mr. Lesch says his only grievance on the trip was the cold reception as the thermometer never registered over 58 degrees during their 4 days there. Mrs. Lesch has an additional grievance which was the fact that Ray failed to land the muskie she had hooked and brought to the side of the boat, and which was larger than the two caught by the men.

An ice cream social will be held on the Presbyterian church lawn next week on Friday evening, July 12th, which is being sponsored by the Dramatic club. Ice cream with fresh strawberries, cake and coffee will be served beginning about 6 o'clock, and continuing through the evening. Instead of bothering with dessert at home come to the social on Friday evening the 12th and finish your evening meal as you chat with your friends.

Fishing Tale Preoccupies Driver; Runs Into Truck At Wheeling

Reminiscing on experiences of a fishing trip while on the way home proved painful and expensive to Thos. Radtke, Jr., of 1917 S. 57th Ave., Cicero, and his father, when their car rammied into the rear of a truck just starting up to cross Dundee road on Saturday morning.

The truck was a semi-trailer and tractor belonging to the Milwaukee truck service and driven by George Hintz of 1617 W. National ave., Milwaukee. Hintz had stopped for the red light and was starting to pull away when struck by the Radtke car.

Radtke had been talking with his father and noticed the truck, but failed to realize that the truck had not yet picked up speed, and

the impact forced the entire hood of his Chevrolet sedan underneath the end of the truck. The car was damaged almost beyond repair and traffic was delayed for some time before the cars were separated.

Fortunately the men were not seriously injured, Mr. Radtke, Sr. receiving a gash on the forehead that required medical aid, while his son had minor cuts that were given first aid in the gas station.

Mrs. A. Blum entertained a group of relatives and friends at a "sauer braten" luncheon on Monday in honor of Mr. Blum's birthday. The Meinkens of Chicago were out of town guests.

Mr. and Mrs. Jake Periolat, of Chicago and Mr. and Mrs. John Schmidt of Wilmette called on relatives here on Sunday.

Mrs. G. Sicks is away on a two month's trip through the north-west, including a visit to Alaska.

Mr. and Mrs. Ansil Merry of Waukegan visited friends here last week.

Mr. and Mrs. Robert Utpadel attended the wedding of a cousin at Willow Springs on Saturday evening.

Remember the library hours for the summer months are Monday evenings from 6:30 until 8 o'clock and Thursday afternoon from 2 until 4 p. m. During the absence of the librarian, books will be checked out on Monday evening by Mrs. M. Willis and on Thursday afternoons by Miss Betsy Dickhoff.

William Katke, Jr., of Detroit, Michigan, is spending a month here with his uncle, Mr. E. Wesolek.

Edward Wesolek, Jr., has a position as time-keeper with the American Can and Foundry co. He took up his duties there for the first time on Monday, accompanying his grand-father, Mr. Fred W. Wolf, who has been an employee of the same company over 50 years.

The John Nielson family enjoyed a vacation last week in Wisconsin, about 12 miles north of Tomahawk. Swollen waters and coolness in that area kept them from doing the fishing they had hoped for.

Demand Immediate Action On Sewage Disposal

A letter from the state board of health demanding action on the sewer problem in Wheeling within 30 days was read to the Wheeling village board, at a special meeting held Tuesday evening. Unless immediate action is taken, the state threatens to turn the case over to the attorney general.

Sewage disposal is a question of vital importance to the health of Wheeling residents, to say nothing of the convenience of modern sanitation.

The Wheeling board has been conferring with engineers in seeking to work out a plan of construction and maintenance that would be financially within the means of the village. With the aid of a WPA grant such a way is possible, but should be undertaken at once. To succeed it must have the support of all Wheeling citizens.

Wheeling people should stop and think.

Would they be satisfied to have their sewage outlet stopped? Could they take care of the prob

Grand prizes this year are a Mercury two-door car, a chrome dinette set, an electric roaster and a portable radio. Attractive prizes will be offered for all games. First prizes in the Bingo game will be worth from \$3 to \$4 each. A further attraction for the Bingo game will be a new booth which will be under cover and more convenient.

As usual there will be clowns and a merry-go-round to make the children happy. The clowns promise to have a special surprise for the kiddies this year. Oldsters looking for a thrill can find it in the Tilt-a-Whirl, a new ride promising to be exciting.

Earl Fredrich's orchestra needs no introduction in this area and the committee is favored in bringing this popular dance orchestra for both evenings. The dance floor should be crowded with rhythm lovers at Wheeling day.

Committee chairmen are: Entertainment, Wm. Laurance; refreshment, Otto Utpadel; Bingo, Art Ormtegel; car, Earl Johnson; grounds, Carl Moeller and Marshall Balling.

HOME COMING AT WHEELING OPENS JULY 20

Games, Dancing and Rides
on Carnival Program
for 500 Residents.

Residents of Deerfield, Arlington Heights, Half Day and near-by communities, together with a few old-timers from Chicago, will gather in Wheeling for a homecoming carnival Saturday and Sunday, July 20 and 21.

The entire population of Wheeling, numbering some 500, is expected to turn out for the carnival of games, rides and dancing which will be staged by a village that is considered one of the oldest communities in northern Cook County and where, it is said, pioneers started tilling the region before the Indians ceded the land to the United States government.

Site of the Wheeling Day celebration, now in its 13th year, will be the public-school grounds on Wille avenue. Sponsors of the carnival are the Chamber of Commerce and the Volunteer Fire Department.

No Formal Program Planned.

No formal program has been arranged, although there will be a merry-go-round, tilt-a-whirl and other forms of carnival amusement. The proceeds, used each year for community improvement, have been applied in recent years toward the cost of the village community hall built in 1937.

The hall, measuring 75 feet by 48 feet, has been erected adjoining the public school, for which it also serves as an assembly. It is maintained by the School Board in cooperation with the community center board.

Last Year's Record at Hall.

Approximately 125 persons a week made use of its athletic and recreational equipment or attended public gatherings there last year. The one-story-and-basement building has a seating capacity almost the size of the village's population and includes a gymnasium, stage and balcony.

Marshall Balling, president of the Chamber of Commerce, and Carl Koeller, fire chief, are general chairmen of the Wheeling Day celebration. Committee chairmen include William Laurance, Otto Utidel, Arthur Ortegell and Earl Hanson.

Plans are well under way for the annual Wheeling day celebration which will be held on Saturday and Sunday, July 20 and 21. The Volunteer Fire Department and the Chamber of Commerce will be the joint sponsors as formerly. There are to be four grand prizes, the first, a Mercury two door automobile; second a chrome dinette set; third, an electric roaster and fourth, a portable radio. A variety of attractions will be offered for entertainment both days.

The Mother's Study club held their annual picnic last week on Wednesday afternoon on the former Childerley grounds. Eleven mothers and seventeen children enjoyed the outing. Two former members of the club, Mrs. Ragusin and Mrs. Celarier, were out-of-town guests at the picnic.

Twenty-five members and friends of the Presbyterian Young People's club enjoyed a weenie roast at the Forest Preserve shelter house last Friday evening.

The Ladies' "500" club held their final meeting of the season at the home of Mrs. Edw. Bucher, at Cary, on Tuesday, the 18th. The meeting was a combination picnic and card party. The ladies left for Cary early in the afternoon, taking a pot luck supper with them. Before supper they enjoyed a tour through the fur farm where the Buchers are employed. The evening was spent in playing cards.

A. Miller and W. Schwall reported a good catch of bass, blue gills and croppies on their fishing trip to northern Wisconsin last week. They brought about 50 pounds home to confirm the report. A severe storm had swept the area a few days before, which the boys are sure cut down their catch considerably. Their only complaint was that a two and a half day fishing trip was much too short, but yet they had a lot of fun.

Mrs. Louis Wittbold of Chicago has been visiting at the Periolat home.

This week Messrs. John Wick and Ray Lesch motored to Eagle River, Wis., for a few days of fishing.

Mrs. Ella Mick, Mr. and Mrs. Harold Brownell and daughter, Katherine of Lowell, Indiana, visited at the Schminke home on Sunday.

Mr. and Mrs. John Schmidt of Wilmette, were Wheeling callers on Sunday.

A group of fifty relatives gathered at the Roy Person home last Sunday afternoon in honor of Mr. Person's mother, Mrs. J. C. Lourdang of Chicago, who celebrated her eightieth birthday on that day. Family ties were renewed as they visited and played games. A bounteous ham supper was served and the reunion carried through the evening.

Fishing Tale Preoccupies Driver; Runs Into Truck At Wheeling

Reminiscing on experiences of a fishing trip while on the way home proved painful and expensive to Thos. Radtke, Jr., of 1917 S. 57th Ave., Cicero, and his father, when their car rammed into the rear of a truck just starting up to cross Dundee road on Saturday morning.

The truck was a semi-trailer and tractor belonging to the Milwaukee truck service and driven by George Hintz of 1617 W. National ave., Milwaukee. Hintz had stopped for the red light and was starting to pull away when struck by the Radtke car.

Radtke had been talking with his father and noticed the truck, but failed to realize that the truck had not yet picked up speed, and

the impact forced the entire hood of his Chevrolet sedan underneath the end of the truck. The car was damaged almost beyond repair and traffic was delayed for some time before the cars were separated.

Fortunately the men were not seriously injured, Mr. Radtke, Sr. receiving a gash on the forehead that required medical aid, while his son had minor cuts that were given first aid in the gas station.

Mrs. A. Blum entertained a group of relatives and friends at a "sauer braten" luncheon on Monday in honor of Mr. Blum's birthday. The Meinkens of Chicago were out of town guests.

Mr. and Mrs. Jake Periolat, of Chicago and Mr. and Mrs. John Schmidt of Wilmette called on relatives here on Sunday.

Mrs. G. Sicks is away on a two month's trip through the northwest, including a visit to Alaska.

Mr. and Mrs. Ansil Merry of Waukegan visited friends here last week.

Mr. and Mrs. Robert Utpadel attended the wedding of a cousin at Willow Springs on Saturday evening.

Remember the library hours for the summer months are Monday evenings from 6:30 until 8 o'clock and Thursday afternoon from 2 until 4 p. m. During the absence of the librarian, books will be checked out on Monday evening by Mrs. M. Willis and on Thursday afternoons by Miss Betsy Dickhoff.

William Katke, Jr., of Detroit, Michigan, is spending a month here with his uncle, Mr. E. Wesolek.

Edward Wesolek, Jr., has a position as time-keeper with the American Can and Foundry co. He took up his duties there for the first time on Monday, accompanying his grand-father, Mr. Fred W. Wolf, who has been an employee of the same company over 50 years.

The John Nielson family enjoyed a vacation last week in Wisconsin, about 12 miles north of Tomahawk. Swollen waters and coolness in that area kept them from doing the fishing they had hoped for.

PRESBYTERIAN CHURCH Sunday, July 7

Morning worship, 10:55 o'clock. Mr. L. Philip Denoyer is to be the guest speaker at this service. Mr. Denoyer has had extensive experience in Bible study and teaching and is one of the outstanding Christian laymen of the Chicago area. All members and friends of the congregation are urged to be present.

Sunday church school, 9:30 a. m. Wednesday evening, July 10, Young People's meeting.

Thursday, July 11, 2 p. m., meeting of the Ladies' society.

Friday evening, July 12, ice cream social by Dramatic club.

There will be no services of public worship of the church on the Sundays of July 14 and 21. Regular services will be resumed on July 28.

Wheeling Days

Planned July 20-21

Now is the time to be a booster for the 13th Annual Wheeling days which are being held Saturday and Sunday evenings, July 20 and 21. Invite your relatives and friends to come to Wheeling for a good time that week-end.

A variety of attractions will be offered for entertainment. Four grand prizes will be raffled off, besides many small prizes. Music for dancing will be furnished by Frederick's orchestra of Arlington Hts.

The Chamber of Commerce and Volunteer Fire department are the joint sponsors of the celebration, but they need the help of all in the community to make it a real success.

The proceeds have always been used largely for projects which benefit all, of which our Wheeling community hall is the outstanding example. Volunteer your service now both as a promoter and worker on the grounds.

Fishing Good In Wisconsin, Wheeling Vacationists Find

Fisherman's luck continued to be good for Wheeling vacationists in Wisconsin last week. Mr. and Mrs. Ray Lesch and Mr. J. Wick returned from Eagle River on Friday evening with a catch of two muskies, twenty-six northern and wall-eyed pike and one croppie. The croppie was especially included among the catch which they brought home because of its size, measuring 15 inches long and five inches wide. The largest muskies measured 37 inches in length and weighed 15 pounds, the other was a little smaller weighing about 12 pounds.

Mr. Lesch says his only grievance on the trip was the cold reception as the thermometer never registered over 58 degrees during their 4 days there. Mrs. Lesch has an additional grievance which was the fact that Ray failed to land the muskie she had hooked and brought to the side of the boat, and which was larger than the two caught by the men.

An ice cream social will be held on the Presbyterian church lawn next week on Friday evening, July 12th, which is being sponsored by the Dramatic club. Ice cream with fresh strawberries, cake and coffee will be served beginning about 6 o'clock, and continuing through the evening. Instead of bothering with dessert at home come to the social on Friday evening the 12th and finish your evening meal as you chat with your friends.

Lower Rates Estimated On Sewer System

File Application For WPA Grant For Wheeling

The question of a sanitary sewer system for Wheeling was again considered at an adjourned meeting of the village board Monday evening. The plans submitted by the engineers at a previous meeting have been thoroughly investigated and a check of prospective users has been made.

According to this investigation it seems possible that the project can be financed by revenue bonds only, provided a W.P.A. grant can be secured. According to present plans the charge to users of the sewer has been estimated at a much lower figure than was submitted

Lorraine Bradford, Of Wheeling, Bride Of Clifford Funk, Des Plaines

Miss Lorraine Bradford of Wheeling, daughter of Mr. and Mrs. Fred Bradford, became the bride of Clifford Funk, of Des Plaines, in a rainbow ceremony, Saturday, June 29, at 4 o'clock at the Bible Faith church, Thacker st., Des Plaines, by the Rev. Walter R. Faust. The church was decorated in palms and the couple was united to the accompaniment of organ music.

The bride wore white chiffon and a sweeping veil with a beautiful crown of pearls and carried a shower bouquet of white carnations and lilies of the valley.

Miss Genevieve Mueller, cousin of the bride, was maid of honor and wore pink chiffon with a tiny hat to match. Miss Ethel Funk, sister of Mr. Funk, was bridesmaid and was attired in blue chiffon and wore a spray of flowers and a blush veil to match. Miss Funk, bridesmaid and another sister of the groom, was dressed in yellow chiffon and a spray of flowers and blush veil. The bridesmaids carried bouquets to match their gowns.

Norval Funk served as best man for his brother. Ushers were Geo. Hoppel, of Des Plaines, and Edward Mueller, of Chicago. They were dressed in tuxedos.

The bride was given away by her brother, Harold, of Chicago. A reception was held at the home of the bride where more than fifty guests attended. Refreshments, music and dancing added to the gaiety of the evening until a late hour. Mr. and Mrs. Funk will reside in Des Plaines.

Bowling Alleys To Be Built In Wheeling

Art Miller, Ardent Fan, Starts Work On Own Alleys

The latest thing in bowling alleys will be available to Wheeling bowlers in their home town when the 1940-41 season opens. The building which will house the alleys is now nearing completion. A local bowling fan, Arthur Miller, Sr., is the owner.

Mr. Miller recently purchased from his family estate, the property on Milwaukee ave., which he now occupies. As soon as the deal was closed he broke ground for the new building, which measures 100 feet by 28 feet and is constructed of brick and block.

Wheeling's first bowling parlor will boast four of the new 1940 Brunswick Centennial Bowling Alleys. A marked feature of these alleys will be the five extra feet back of the approach, providing a better set-up for the convenience of waiting players than is found in the old style alleys.

Art himself is a real bowling enthusiast. He took up bowling in 1918 and it continued to be his chief hobby. Being convinced of the values of bowling as a wholesome form of recreation for the public, he decided to make it a business enterprise.

"Bowling helped me keep my 'girlish' figure," is the way Art puts it to his friends, especially the ladies.

Popular interest in the game has been growing rapidly, according to reports of the National Bowling Assn., and Wheeling is no exception. During the past two seasons a group of thirty local bowlers engaged the Mount Prospect alleys one evening a week. One of the boys, Arthur Laurance, was entered in the A. B. C. tournament held in Detroit this spring.

The opening of the new bowling parlor next September will be the materialization of a plan cherished by Mr. Miller for ten years.

Having been born and raised in Wheeling Art is a home town man as well as a bowling fan, and the launching of this new business is a substantial proof. He plans to manage the bowling parlor with regulations and equipment that will place it on a par with any of the best in surrounding towns. Local fans should watch for the grand opening announcement.

Record Crowd At Celebration

Record breaking crowds attended the 13th Annual Wheeling Day celebration both Saturday and Sunday evenings. True to tradition, Saturday evening was the homecoming night, with many former Wheelingites coming back to meet old friends.

While all attractions on the grounds received favorable patronage, the outstanding ones seemed to be Bingo, Hooligan, the Tilt-A-Whirl, ducking the colored boy and the dance floor. The improved Bingo booth and attractive prizes held players at that booth until well past midnight on both evenings.

Refreshment stands were all kept busy and the popularity of Wheeling day hamburgers, exhausted the supply both nights.

The moderately cool moonlight evenings following the heat of the days, kept the crowds late, glad to cool off in the open.

A free attraction which especially delighted the kiddies were the three exhibitions given by a clown and his trained pony. On Sunday evening a special feature of entertainment enjoyed by all, was the concert by the Junior Drum and Bugle Corps of the Arlington Heights American Legion.

The closing feature of the celebration was the grand prize drawing. So. Clay St., Hinsdale, Ill.; dinette

A simple but impressive wedding ceremony was conducted in the Wheeling Presbyterian church on Thursday, July 25, at 7 p. m., when Miss Dorothea Bieber, daughter of Mr. and Mrs. John Bieber, became the bride of Mr. Ernest Stavros, son of Mr. and Mrs. Anthony Stavros. The pastor of the church, the Rev. D. C. Morrison, officiated, using the double ring ceremony, which was witnessed by the sixty-five relatives and friends assembled at the church.

The bride was attended by her sister, Lillian, and given away by her father, and the groom was attended by his brother, Theodore. The bride was becomingly dressed in a silk crepe ensemble in navy blue with a hat to match and wore a corsage of white roses.

Find 50 Year Old Newspaper in 100 Year Old House

Political Parties Were Quarreling in 1890 Over National Debt

Republicans and Democrats fifty years ago were arguing over a national debt of \$750,000,000, according to the Chicago Inter Ocean of Sept. 2, 1890. The old newspaper was found recently by John Bieber in the walls of his home which he was remodeling. He resides on Milwaukee ave. near Hintz rd. The house is admitted to be over 100 years old and the original timbers are still in use.

The Biebers have only lived there seventeen years and purchased the place of 24 acres for \$8,000 in 1938. The county assessor places a value of \$12,000 on the land alone, which has brought about a tax raise from \$56 to \$200 in the last few years.

Fifty years ago the partisan newspapers were much excited over a public debt of less than a billion dollars. In 1890 the Republicans, under Benjamin Harrison were talking about paying off the entire national debt if he was granted a second term. The Inter Ocean stated in its editorial that the Republicans were reducing the debt by purchasing over \$8,000,000 of government bonds every month.

The editorial suggested that the veterans of the civil war were getting older every day and the heavy war pension expense would soon show a reduction every year.

A second editorial showed excitement over new compounds to take the place of lard and thereby work a hardship on farmers. (Those were the days before the creation of Spry and Crisco).

A third editorial warned the nation that southern states claim of state sovereignty was the first step to a repetition of the principles that brought about the civil war. It decried the hostility of the south to the National idea.

The Bieber home was at one time a roadside tavern. Mr. Bieber was told by his father a quarter of a century ago that the house was standing as long as he could remember. At that time he was 78 years old, which places an age of at least 100 years upon the place.

Surprise Ratieke's With Silver Wedding Celebration

Mr. and Mrs. Ferdinand Ratieke were the honored guests at a silver wedding celebration, planned for them as a surprise by their sons and other relatives.

About 150 guests assembled at the Wheeling Gym where the anniversary celebration was held. Music for dancing was furnished by the Ahrens orchestra.

A delicious cafeteria lunch was served at midnight. Mr. and Mrs. Ratieke received many gifts and hosts of good wishes from all their friends.

On Tuesday, July 30, little Shirley Ann Scanlon celebrated her third birthday with the help of her little friends. The table was decorated in pink and blue, with paper dishes and napkins to match. In the middle of the table was a beautiful birthday cake which read "Happy Birthday to Shirley." Cake and ice cream were served and all had a fine time.

Mrs. Charles Balling and Mr. M. C. Balling were among the twenty-five relatives who gathered at the home of a cousin, Mrs. E. Stout of Barrington, last Saturday afternoon, to enjoy a feast of fresh sweet corn, with all the trimmings. her job at the Wheeling State Bank, after a week's vacation. She says she doesn't find the heat as hard to take at work, as it was at home with lots of time to think about it. There's consolation there for all those of us who don't have a vacation.

The August Child Health Station will be held on the second Wednesday afternoon, August 14. This will be the final round-up of children who will start to school for the first time in September.

Beginning next week the public library will be open only on Monday evenings from 6:30 until 8 p. m. Withdrawals made on Thursday afternoons were so few in number that it was decided to discontinue that period.

Volley Ball Teams *Aug 2* Picnic At Cedar Lake Until 'The Rains Came'

About fifteen members of last season's volley ball teams with their families picnicked at Sherwood Park, Cedar Lake, last Thursday afternoon and evening. The outing was arranged as a special treat using surplus funds which remained at the close of the playing season.

The afternoon was spent swimming, playing ball, horseshoe and cards, and boat riding. An outboard motor provided by one of the members, was kept busy by those who went boating.

The after supper program was cut short by the rain storm which broke about 7:30, sending half of the group home in a hurry. Those who remained enjoyed a few dances in the covered pavilion, but the continued rain and wind spoiled the fun, so they decided to adjourn to the home of J. Nielsen where they finished the evening at cards.

All mothers of small children in the village and the surrounding farming area, are urged to avail themselves of this free service. Mr. and Mrs. Wm. Katke of Detroit, Michigan, came last week to pick up their son, William, Jr., who had been spending six weeks with

his cousins, the Wesolek's. Without giving his parents time to raise any objections, they picked up Arthur Wesolek and took him along to spend the rest of his vacation in Michigan. They planned to return via a northern route, and spend some time in northern Wisconsin and Michigan.

Mrs. Fred W. Wolf who recently celebrated her sixtieth birthday, suffered a stroke while sitting in her home last Friday evening. One side was left paralyzed. Her condition is still considered very critical.

A group of seven local couples sought entertainment near home last Wednesday when they spent the evening at Bon Air Country club. The men enjoyed a dip in the pool before dinner. The dinner hour was followed by the colorful floor show which is a regular feature at Bon Air. The party received a special thrill when their table was visited by a dancing couple from the show. Dancing to the strains of Abe Lyman's orchestra filled in the balance of the evening.

Wheeling Camp Royal Neighbors held their annual outing on the spacious picnic grounds of Sherwood Park, Cedar Lake, last Thursday. Forty members and friends arrived at the lake early in the afternoon. Swimming, boating, hiking, cards and dancing all helped to build up good appetites for the bounteous pot-luck supper which was spread about 5:30. Six more picnickers arrived in time for supper. After supper a short baseball game and more swimming, boating and dancing kept the picnic in action until about 10 p. m.

Four Injured In Front Of Pieper Home; Car Crashes Into Tree

The August Pieper family were roused from their sleep at 2:30 a. m. last Friday when a car crashed into the tree in front of their residence. Two young couple returning to their homes in Libertyville were the occupants of the car, all of whom were injured.

The force of the impact drove the headlight of the car back under the instrument board. One of the girls was thrown first through the windshield and then out onto the pavement when the door sprang open. State policemen who happened on the scene before the local chief arrived, took charge of the accident.

The county ambulance was called to remove the victims to a hospital. But for the tree, the car would have crashed directly into the front porch of the Pieper home which is on the opposite side of the street from the north lane of traffic.

Wheeling Young Man 'On Leave' From Aviation Base

Lester Tesch of Wheeling, returned to the naval aviation base at Pensacola, Florida, this week, having been home on a twenty day leave.

Lester first enlisted in the aviation department of the naval reserves six years ago. Last spring he was called into full time service due to the enlarged program of training pilots by the army and navy.

His present rank is that of aviation ordnance man, or to use common terms flying gunner. He flies as second pilot and bomber. Part of his work is training recruits. He finds the work very exacting but also very thrilling. So far he has 350 hours of flying to his credit.

Ordinarily the men are allowed a thirty day leave each year, but because of the international emergency the leaves have been cut to twenty days. Determined to make the most of the time, Lester drove home in twenty hours from Pensacola. Another young man on leave whose home is in Detroit accompanied him. They planned to make the return trip more leisurely, and allowed themselves several days' time to get back to their post.

Lester was uncertain as to how long he would remain at the Pensacola base. Since the government has acquired the naval bases from Great Britain, it is quite probable that some of the squadrons of planes will be shifted to those bases for coastal patrol duty.

Wheeling Greets New Bowling Alleys

Between 250 and 300 bowling fans were present at the grand opening of Columbia Recreation last Saturday evening.

Master of ceremonies was Mr. William Laurance, who welcomed the guests on behalf of the proprietor, Mr. Arthur Miller, Sr. He then called on the heads of the various organizations to bring their greetings and roll the first balls.

Mr. Hans Schmidt was called on first, and as mayor he expressed the sentiments of the residents of the village as he complimented Mr. Miller on the fine bowling alleys he has made available to the community.

Other officials who brought greetings appropriate to the occasion were Carl Moeller, fire chief, Ray Lesch, police chief, Arthur Fassbender, police magistrate, Marshall Balling, Pres. Chamber of Commerce, Henry Grandt, Pres. School Board, Choice Wieder, road commissioner, Gilbert Klehm, supervisor. Grandpa Miller was also called upon to say hello to the crowd. Women's organizations were represented by their presidents: Laura Lesch, Recreation club, Ellen Fassbender, P.-T. A., Sophia Allison, Ladies' Aid, and Marie Schultz, Royal Neighbors.

Little seven year old Dona Jean Miller, cut the ribbon and rolled the first ball officially opening the alleys. Except for her size, Dona Jean, might have been a veteran at the game, considering her poise as she cut the ribbon, and her form as she delivered the ball; a small six pound ball presented to her by the Brunswick people. The little ball traveled smartly to the end of the alley upsetting some of the pins, but not claiming a strike.

The first games were played by local officials whose scores for one game were:

H. Schmidt	153
Carl Moeller	142
Ray Lesch	151
A. A. Fassbender	76
M. Balling and D. Welfin Sub.	158
H. Grandt	71

G. Klehm	113
C. Miller and J. Forke Sub.	134
L. Lesch	134
E. Fassbender	99
S. Allison	47
M. Schultz	65

Art Jr. gave the crowd an extra laugh quite unintentionally when he challenged his dad. Art Sr. rolled the first ball and seven pins fell. Art Jr. otherwise known as Bud, rolled his first ball straight toward a strike but the perverse thing veered in its course neatly avoiding the pins and landing in the gutter. But took his "razzing"

A delicious chicken dinner was served at noon. The afternoon was passed playing pinochle and other games, and the guests remained for supper and the evening.

'Those Were The Days' In Village Of Wheeling

The ordinances which protected the lives and property of Wheeling citizens in the earlier part of this century are still on the books of Wheeling according to Miss Lucille Schneider, Wheeling reporter of the Cook County Herald. Here are some of the things which she found:

Contrary to popular opinion, rules of law and order are oftimes found to be a rich store-house of history, instead of a dull recital of regulations, as was recently proved by a study of the ordinances of the Village of Wheeling. The survey revealed an interesting picture of the "march of time" since the incorporation of the village in 1894.

A delegation of dissatisfied residents presenting a petition at the last meeting of the village board, brought about the examination of the old ordinances enacted during the "horse and buggy" days.

It Was a Decorous World

"No person shall in any place in said Village, fly kites, trundle hoops, play ball, or engage in any sport or exercise likely to frighten horses, injure passengers, embarrass the passage of vehicles or obstruct the business of other persons." From Ordinance No. 2, Sec. 23, passed 1894.

"Be it ordained that no person shall drive or ride any horse or mule over or upon, or propel or cause to be propelled over any bridge within the vilage of Wheeling at a greater speed than a walk." From Ordinance No. 32, Sec. 1, passed 1899.

Municipal Salary List

Village officials should be glad to belong to a later generation in view of the wages allowed to the city fathers forty-five years ago. Section 5 of Ordinance No. 9, passed in 1895 reads in part as follows.

"Each trustee shall receive one dollar for each meeting of the village board he attends, provided the compensation of no trustee shall exceed thirty dollars per annum.

"The president shall receive one dollar for each meeting of the village board over which he presides, provided the compensation of the president shall not exceed thirty dollars per annum.

"The village clerk shall receive a salary of fifty dollars per annum.

The village lamp lighter each evening at dusk, with his ladder and blowtorch, was a never failing source of attraction to children

of a generation ago. His duties were included among those of the village marshall as recorded in Ordinance No. 21 passed in 1897.

"The duties of the village marshall shall be:

1. Street lamplighting and taking care of street lamps.
2. Work on streets, crossings and culverts.

3. Cleaning of fire apparatus, engine, hose and fire-house and village hall.

4. Collection of dog tax.

5. All other work in the village and for the village, which the village board may deem necessary to assign him.

The compensation for the village marshall shall be thirty dollars for each month."

Another pastime unknown to the children of today is recalled by the ordinance regulating the building of wooden sidewalks, which required that the walks be built of 2-inch planks, 4 feet long and 6 to 8 inches wide, laid crosswise on stringers 2 by six inches. Every one whose birth dates back before 1900 must have recollections of sprawling on the old board walk, fishing between the cracks with two small sticks, hoping to retrieve the lost coin, often raising it to the crack, only to have it fall back. In more luckier instances a loose board aided the seeker.

Motorists who chafe at present

restrictions set by state laws should find comfort in the following excerpts from Ordinance No. 64 effective in 1908:

"The following rates of speed may be maintained but shall not be exceeded upon any public highway in this village by any one driving a motor vehicle or cycle: A speed of one mile in ten minutes (or six miles per hour) when turning a corner, and a speed of one mile in six minutes (or ten miles per hour) when passing through this village.

"When ever it appears that any horse driven or ridden by any person upon any street becomes frightened by any motor vehicle, it shall

be the duty of the person driving the motor vehicle to cause the same to come to a full stop until such horse or horses have passed."

So the records of even a small village unfold a dramatic picture of human progress in a democracy where laws are never chains of slavery but safeguards of freedom.

Miller cited the soil experiment field at Clayton in Hancock county as an example. The field was established in 1911, limestone being applied that first year for the benefit of corn, oats, clover and wheat. By 1915 with the completion of the first rotation, the limestone was responsible for increased yields of 1 1/2 bushels an acre of corn, 12 bushels in the case of oats, and two-thirds of a ton of clover hay. The wheat yield that year was not improved by liming, but the value of the increases of the other three crops averaged over the four fields was \$5 an acre.

In time with the present drive for more conservation of land, water and human resources in 1940, the University of Illinois College of Agriculture and the U. S. Department of Agriculture are emphasizing, along with more use of limestone, increased seedings of legumes and grasses, more plantings of trees, pasture improvement and erosion control with special emphasis on contour farming.

It Was a Decorous World

"No person shall in any place in said Village, fly kites, trundle hoops, play ball, or engage in any sport or exercise likely to frighten horses, injure passengers, embarrass the passage of vehicles or obstruct the business of other persons." From Ordinance No. 2, Sec. 23, passed 1894.

"Be it ordained that no person shall drive or ride any horse or mule over or upon, or propel or cause to be propelled over any bridge within the vilage of Wheeling at a greater speed than a walk." From Ordinance No. 32, Sec. 1, passed 1899.

Municipal Salary List

Village officials should be glad to belong to a later generation in view of the wages allowed to the city fathers forty-five years ago. Section 5 of Ordinance No. 9, passed in 1895 reads in part as follows.

"Each trustee shall receive one dollar for each meeting of the village board he attends, provided the compensation of no trustee shall exceed thirty dollars per annum.

"The president shall receive one dollar for each meeting of the village board over which he presides, provided the compensation of the president shall not exceed thirty dollars per annum.

"The village clerk shall receive a salary of fifty dollars per annum.

The village lamp lighter each evening at dusk, with his ladder and blowtorch, was a never failing source of attraction to children

of a generation ago. His duties were included among those of the village marshal as recorded in Ordinance No. 21 passed in 1897.

"The duties of the village marshal shall be:

1. Street lamplighting and taking care of street lamps.

2. Work on streets, crossings and culverts.

3. Cleaning of fire apparatus, engine, hose and fire-house and village hall.

4. Collection of dog tax.

5. All other work in the village and for the village, which the village board may deem necessary to assign him.

The compensation for the village marshal shall be thirty dollars for each month."

Another pastime unknown to the children of today is recalled by the ordinance regulating the building of woodensidewalks, which required that the walks be built of 2-inch planks, 4 feet long and 6 to 8 inches wide, laid crosswise on stringers 2 by six inches. Everyone whose birth dates back before 1900 must have recollections of sprawling on the old board walk, fishing between the cracks with two small sticks, hoping to retrieve the lost coin, often raising it to the crack, only to have it fall back. In more luckier instances a loose board aided the seeker.

Motorists who chafe at present

restrictions set by state laws should find comfort in the following excerpts from Ordinance No. 64 effective in 1908:

"The following rates of speed may be maintained but shall not be exceeded upon any public highway in this village by any one driving a motor vehicle or cycle: A speed of one mile in ten minutes (or six miles per hour) when turning a corner, and a speed of one mile in six minutes (or ten miles per hour) when passing through this village.

"When ever it appears that any horse driven or ridden by any person upon any street becomes frightened by any motor vehicle, it shall

be the duty of the person driving the motor vehicle to cause the same to come to a full stop until such horse or horses have passed."

So the records of even a small village unfold a dramatic picture of human progress in a democracy where laws are never chains of slavery but safeguards of freedom.

LOCALS

Twenty girls met at the Presbyterian church on Monday afternoon to consider the formation of a Girl Scout Troop under the leadership of Mrs. L. P. Denoyer. Wheeling has not had a program of girl scouting since 1929 because of lack of leadership. Mrs. Denoyer has been a leader of troops in Chicago and Wilmette for twenty years besides actively participating in other departments of the Girl Scout program. We are happy that this opportunity to share in the adventure of scouting has opened to the girls of Wheeling community.

Mrs. Leah Lass and children Betty and Buddy of Evanston, and Mrs. Elsie Johnson, Mary Ann and Mrs. F. Bradford were callers at the Wright home last week.

Verne Schuler returned to Wheeling on Monday after spending a

few weeks with his mother in Minnesota.

Masonic Lodge Celebrates 90th Anniversary

First Meeting Was
Held Oct. 19, 1850

Between three and four hundred people assembled in Wheeling Community Hall Saturday evening to celebrate the nintieth anniversary of Vitruvius Lodge A. F. and A. M.

Past Master of Vitruvius Lodge Brother Edward H. Forke presided as master of ceremony for the evening. The invocational program was led by the Rev. D. C. Morrison. The program opened with the salute to the American Flag and the singing of the Star Spangled Banner. Fifteen past masters of the lodge were introduced by the present Master. Worshipful masters and past masters from other lodges were introduced by Brother John Rein, District Deputy of the 19th District.

The history of the lodge was presented by Brother Harry Talcott, past district deputy and honorary member of all 19th District Lodges.

A period of community singing, and an exhibition of sleight of hand tricks performed by Nick Tomei, North Shore magician, were special entertainment features of the program.

The principal speaker for the occasion was Brother Marshall Solburg of Chicago who was introduced by Roscoe Tearney of the Oriental consistory. Brother Solburg brought a stirring message of the past maintained by free masonry in the establishing of liberty in the government of the world, and urged upon his fellow craftsmen to be loyal to the traditions of the past.

Ninety one years ago seven master masons, members of Lafayette Lodge No. 18 and Oriental Lodge No. 33, then the only lodge of Free Masonry in Cook County, met and resolved to petition for a dispensation to organize a new lodge at Dutchman's Point, now known as Niles. The petition asked that the name of the new lodge be Vitruvius taking the name from the architect and engineer Marcus Vitruvius Pollio, who lived in the first century B. C., and whose works are still a fundamental authority in that profession.

A dispensation was granted to these petitioners Oct. 4, 1849. On July 20, 1850 the lodge while still operating under the dispensation decided to move to Wheeling, and on Sept. 14, 1850 their petition to move to that place was granted by the Grand Master.

On Oct. 10, 1850 a charter was granted by the Grand Lodge of Illinois to Vitruvius Lodge No. 81 of Wheeling and the first meeting

was held in the basement of the gym.

The annual chicken dinner benefiting Wheeling Presbyterian church will be held in the Community Hall next Wednesday evening, Oct 23rd. Serving will begin at 5:30 p.m. and continue until 7:30 p.m.. Come to the Community hall next Wednesday for a good meal and a friendly visit with your neighbors.

The Deiver Dever family are happy to include another boy into their family circle, born Sat. Oct. 5 at Evanston hospital. The arrival of "Fattie" William Henry gives the Devers a pair of boys to match the pair of girls, a fine little family.

Once again, we approach the season of the annual roll call of the American Red Cross. An urgent appeal is being made to all men and women of good will, to swell its ranks so that its broad helpfulness may be extended to even greater numbers of suffering humanity. Citizens who join as members during the annual roll call are joining in a work of mercy, which knows no creed or race, which reaches into millions of homes, both at home and abroad. Not only is the Red Cross organized for relief after catastrophe, but it carries on every day of the year through its 3,700 chapters all over the nation, programs of safety, nursing education and family rehabilitation to prevent disaster. Are you grateful for your privileges as an American citizen? Show your gratitude by supporting your messenger of mercy, the American Red Cross. Foley and Allen Fill First ^{now} Army Quota of District One

*Pals Thru School, Bill and John
Enter Army Together*

John Allen and Wm. Foley, of Arlington Heights, are filling the first quota for draft district number 1.

Two Local Volunteers Will Report Monday For Induction

Almost inseparable since the days of grade school, William Foley and John Allen of Arlington Heights are filling the first quota of draft district one and will report for induction into army service at 7:30 a. m. Monday morning.

D. R. Rippey, chairman of the draft board received word Tuesday that the draft quota for this district was two. He found it easy to fill and selecting two men from the local volunteers, he issued the orders that Foley and Allen have been awaiting since they volunteered for enlistment.

The two boys have signified no service preference except that it be land duty. They hope that they will be able to remain together. Foley graduated from Arlington Heights high school in 1936 and Allen a year later.

The latter has had two years training in the ROTC, attending a school of mines and mineralogy, a year at the University of Illinois and a semester at Armour's Institute. William entered the Northern Trust bank immediately after his graduation and is leaving their employ with the assurance that there will be a job waiting for him after his year's training.

Ferd Weidner, 921 North Dunton, Arlington Heights joined the ranks of recruits of the technical branch of the air corps at Jefferson Barracks, Missouri, last week and in another week or two will be on his way to Hawaii where he will probably be stationed for the duration of the three years for which he has signed up. Weidner, son of Mr. and Mrs. Englebert Weidner, was quick to take advantage of an announcement of two thousand vacancies in the air corps and immediately asked for the three year enlistment instead of the one he was so certain that he was going to like it.

Walter M. Mueller, route 1, Arlington Heights, has been assigned to Scott field in Illinois for his technical training in the air corps.

Albert Duenn, another Arlington Heights boy, is in the same position as Allen and Foley, except that he has not yet been ordered to report. He has volunteered for service but will necessarily wait for quota assignment.

18 Girls Inducted In Girl Scouts At Denoyer Cabin

Eighteen girls were officially received into the world-wide sisterhood of girl scouts when they received their tenderfoot pins at an Investiture and Tree Planting ceremony held at the Denoyer Cabin site Sunday afternoon. The program opened at 3 o'clock with the raising of the flag by the troop color guard and the pledge of allegiance by the Wheeling girls. The prayer of invocation was led by Rev. D. C. Morrison.

The tree planting ceremony followed. The Horse Chestnut and Linden trees were planted by the Skokie Patrol of high school girls. The Norway and Schwedeler Maples were planted by the Maple Patrol of 6th grade girls. The Weeping Willow and White Ash by the Eagle Patrol of 7th grade girls. The Mountain Ash and Chinese Elm by the Everlasting Patrol of 8th grade girls. The Pin Oak and Maiden Hair trees were planted by the adult sponsors of the troop.

The trees were presented as a memorial to the Wheeling Girl Scouts by Ernest Kruse, one of the scout fathers, and had been set the day before, ready for the last filling of earth. The Investiture ceremony was held before the open fire place in the Denoyer Cabin, which is rich in Girl Scout memories. The girls who received their tenderfoot pins from their captain, Mrs. L. P. Denoyer, were Betsy Dickhoff, Lorraine Schmidt, Margaret Schmidt, Ingrid Nielsen, Betty June Graff, Elaine Hipp, Hazel Hipp, Selma Kraus, Shirley Wieder, Peggy Kruse, Mary Dietrich, Betty Frank, Barbara Haben, Polly Person, Alice Ortegel, Jeanette Beck, Joan Nielsen and Helen Laye. Lois Hanselman, of Oak Park, an associate member of the troop was invested with a second class badge.

Poems appropriate for the occasion were read and the solo "Trees" by Joyce Kilmer, was sung by Scout Peggy Kruse. At the conclusion of the program the entire assembly of guests and scouts were invited into the Denoyer home where refreshments were served. Guests were also shown through the lovely new home by the gracious hostess and genial host.

The prayers of many of the Wheeling girls for the opportunity to follow the girl scout trail have been exceptionally answered by the coming of Mrs. Denoyer to this community. Mrs. Denoyer possesses a contagious girl scout spirit herself and has been a successful leader of troops in Chicago and Wilmette for twenty years. Besides this she brings a rich personal experience in the teaching profession, travels and Christian service, plus a husband with like experiences, friendly to the Girl Scout cause.

Herald Asks Cooperation Of Bowling Alleys

Bowling news has become increasingly important to those who are following that sport, but there are now so many alleys in the territory covered by the Paddock Publications that to make possible such publication it has become necessary to ask alleys to cooperate by contracting for a minimum of \$1.50 a week advertising space.

The Herald regrets that Wheeling bowling scores cannot hereafter be published.

P.-T. A. Brings Speaker On Better Health For Public School Children

A program of vital importance to all parents has been planned for the regular meeting of the P.-T.A. of Wheeling school to be held next Monday evening at 8 p. m. The guest speaker will be Dr. E. A. Piszczek of the Cook County Bureau of Public Welfare and his subject will be "Historical Advances for the Promotion of Better Health in Public School Children."

This service is in keeping with the trend toward the "Preventive Medicine" movement which is gaining the attention of thinking citizens everywhere.

Car Waiting For Freight Boosted By Truck Across Tracks

William Hugo, Sr., suffered a wrenched back and bruises when his car was boosted over the Soo Line railroad tracks into the ditch on the opposite side by a beer truck that failed to stop for the lights last Friday evening.

The signal lights were flashing and Mr. Hugo stopped his car about 100 feet from the tracks. The driver of the truck apparently saw neither the signal nor the stopping car and crashed into the rear of the car sending it across the tracks. Fortunately for Mr. Hugo the signals were operating for a freight train which had stopped just before reaching the crossing.

GOD IS HERE

Oh Happiest they of the Human
Race to whom our God has given
Grace

To hear, to fear and to Read and
Pray; to lift the latch and force
the way.

But better had they never been
born who shall read to doubt or
shall read to scorn.

THE GOLDEN RULE

Only what God puts into the
hearts and minds of men may last
forever. By struggle men shall
achieve, not by gift. That is, and
has been, and shall be God's law.
The child that is to be richer than
Rockefeller and an inventor greater
than Edison, and a leader of men
more powerful than what the world
has ever known.

THE SERVANT

I simply claim the intuition of
discerning all things in the physical,
mental and spiritual life, and
all things in the material world, including
perpetual motion.

And so the finger of God moves
on, nor all your pity, nor wit, nor
all your tears shall wash out one
work of it.

A SUICIDE

Is one who has taken his own
life and when the soul shall leave
the body it shall go half way between
heaven and earth and there
it shall be blown backward and forward
and suffer in anguish and
pain, not being able to return to
earth or go into heaven until the
day that God had ordained it shall
leave this earth.

DEATH

Look into a dead man's eyes and
what do you see—nothing but a
vacant stare therein where the soul
has left the body to be judged by
God what you have been on this
earth.

PRAYER AND OATH

Help me, Oh God, I pray, that
in thy wisdom thou has given me a
man task; help me that I may not
prove unworthy before God and
my fellow men.

THE MIRACLE

The miracle is one who has
brought his soul in touch with God
the Father, therefore a mind higher
and greater than anyone else,
or what anyone has ever thought
of; therefore, the people shout a
miracle, and so God is here.

Religion of today instead of worshipping
God, they now worship a
series of forms, traditions, idols
and images, dollars and cents.

THE GREAT COUNSELLOR,
PRINCE OF PEACE,
GOD, THE SERVANT.

Amen

World Conditions Make A. A. Necessary To Protect Farmers

College Boy Sets Style in Clothes for Dad Back Home

Pace setters for men's styles in clothing are usually the younger men, with the fathers following suit, according to Mrs. June Foster, assistant in home economics, University of Illinois College of Agriculture.

This year collegiate stores are displaying top coats which are much shorter in length and with slightly puffed sleeves. Set-in sleeves have taken the place of the raglan style sleeve. Cavalry cord, a tightly woven material used in cavalry uniforms, is in demand for topcoats and slack suits. As for hats, the telescope crown is the newest fashion. Wider brims bound in gabardine, gros-grain or the same felt are being seen.

Going out of style are the double-breasted and action back suits, according to clothiers who service college students. Very

their collar pins.

Franch cuffs, that is, a double cuff held together by links, will never quite come into complete favor among the younger generation because mothers who do the family laundering do not like to starch and iron this type of cuff, predicted Mrs. Foster.

In the tie line, knitted ties are to a clothing store what sugar is to the grocery store. Sooner or later son or father purchases a knitted tie. Incidentally, for best appearance, knitted ties should be folded and laid in a drawer instead of hung on a tie rack where they stretch out of shape.

Socks offer the same variety to men that costume jewelry does to women. Along with a wide selection in materials, there is an ever-changing style varying from the recently popular, round-the-leg stripes to the colorful argyle plaids. Ribbed hose are a general favorite because they fit so well. Solid colors with or without clocks are old standbys for conservative use. In shoes, the color known as "antique" or "bootmaker's finish," implying the soft, neutral color of the old unfinished leather, takes up 95 per cent of the shoe trade. It comes in sporty moccasins, crepe soles or dressy wing-tips and goes well with any color suit.

A word to the wise for mothers and girl friends is not to continually choose blue sweaters for husbands and sweethearts. Blue is not so popular with men nor so harmonious with their clothes as it is with women. Ninety per cent of the sweaters on the shelves are beige, Mrs. Foster said.

Rapidly changing national conditions mentioned in the AAA program are important to Cook County, in 1941, Henry D. Cook, president of the Cook County Agricultural Conservation League, warns.

He issued this statement in connection with the 1941 campaign now under way. AAA committee members met with farmers in the county to secure their views on the farm program and the farmers' participation.

Allotments which are made up by AAA committees represent what farmers can profitably raise with their soil, Mr. Cook said. They have been in effect since crop needs for home use.

He added that while the marketing quota referendum is especially advisory, farmers are urged to participate in the program. Farmers' allotments will be realized under the new system.

The loss of foreign markets for good crops in the past have caused the need for an effective crop adjustment program, the county man declared. Even if it stays out of the market, it hurts its effectiveness.

For further information, sign up with the program, farmers can contact the county agricultural association office at 1111 North Heights, or see community AAA.

E. S. Observes 20th Anniversary

Wheeling chapter 850, O. E. S., celebrated their 20th anniversary last week when past officers of the chapter, assisted by friends from neighboring chapters filled the stadium for the evening.

Christine Gieske, past matron of Wheeling Chapter, presided at the event and she was assisted by her husband, George Volz, past patron of the Wheeling Chapter as patron. The stadium was filled by past officers of Wheeling Chapter, with the exception of three, which were filled by guests, Myrtle Frey and Florence Luckner of Arlington and William Jienkie of Des Plaines.

A brief but interesting history of the chapter with the high lights brightened and shadows softened, was presented by Sister Marion Knapp, the first matron of the chapter, and an active member during its twenty years of existence. Old times were recalled during the remarks offered by Sisters Celia Busam and Edna Mahn and others George Volz and George Ward. Each past officer was presented with a carnation as a thank you token.

The present matron, Sister Shirley Ward, chose to be a listener for the evening, glad to be instructed and inspired by voices from the past. Shirley was still a very small girl when the chapter was instituted 20 years ago. Quite appropriately, Shirley is being assisted in her present station, by her father, Brother George Ward as patron.

A social hour followed the meeting during which a center of attraction was the cutting of the anniversary cake, which was big enough for all present to be served.

In spite of the very inclement weather, which held down the attendance, the chapter's 20th birthday party was a very happy occasion.

Galitz, who has not been a member of the group since the illness of her husband. MOON AT THE WELL

Oh, thin new moon, shell of a nail,
Lend me your light when I go with
my pail
Down the orchard row to the
wishing well,
Share your new candle, oh, fair
moon shell.
My pail I'll dip 'til it drips and
swings,
Brimming with stars and thin gold
rings,
And the minnow's arrowy dart I'll
hold
With a tremulous rod from the
stars so old;
Blossoms drift in my pail to float,
Gossamer sails of a moonbean's
boat.
Moon, there's a bridal wreath in
my hair,
Woven of peach and of plum and
pear!
Water and moonlight, blossom of
plum,
Shall you all be here next spring
when I come?

The author of Sac Prairie Village kept a journal as, today the first pasque flower bloomed, or, today the redwings returned to their swamp—things important enough to note. A nucleus of such a journal is on the kitchen calendar: May 6th: The whip-poor-will's call woke us. May 10th: Lured the cardinal to come to the kitchen window ledge and eat his seed. May 11th: The white crowned sparrows gave a wonderful concert, in chorus and antiphonally. The bird book says these migrants are to be found, when here, in deeply wooded ravines, and, "and while with us they rarely if ever sing." There is no quenching their marvelous bursts of melody, while with us! And they enjoy the bath and feeding station equally with a ravine. May 12th: Saw the cardinal take off from the feeding station to land on the kitchen window ledge and eat a

Ingenuity in Furnishing

Whether you have lots or little to spend, ingenuity is still the most important ingredient in furnishing a home. Without it, the most imposing array of furniture in your home will probably look like a show window. With it, a collection of odds and ends can be made charming. The most interesting results are achieved through a combination of old and new.

P.-T. A. Closes Year With Delicious Fellowship Supper

Tables heavily laden with food and gaily decorated with flowers greeted all who attended the closing meeting and fellowship supper of the Wheeling P.-T.A. Monday, May 26.

The first order of business was the supper, which kept every one very busy trying to put away at least a sample of the many tasty foods. When the belts were all out to the last notch, the business meeting was called to order by the Rev. D. C. Morrison, who presided in the absence of the president. Routine business was dispensed briefly.

The chairman then introduced the guest speaker and installing officer, Mrs. C. D. Allen of Brookfield, Illinois, past president of this district. The installation followed and officers installed were: President, Troy Lee; vice president, Mrs. Ray Lesch; secretary, Miss Margaret Goss, treasurer, Mrs. Ed. Wesolek.

Following the installation the new president took the chair. In a few well chosen remarks he expressed his hopes for a good year ahead, and asked for hearty cooperation from all parents, especially the fathers. He then announced the committee chairmen as follows, after which the meeting adjourned. Program, Wm. Laurance; hospitality, Miss B. Keith; ways and means, Mrs. R. Lesch; welfare, Mrs. F. Utpadel; library, Mrs. D. C. Morrison; round-up, Mrs. O. Ellwood; publicity, Miss Henry; refreshments, Mrs. W. Laurance; membership, Mrs. H. Mayer; music, D. C. Morrison.

Camp Roberts is a new camp which now houses 20,000 men and expects to enlarge to a capacity of 45,000 by fall. The Illinois license on Oscar's car attracted the attention of many Illinois boys who approached them for a bit of news from the old home state.

On the Sunday out there they made an excursion trip into Old Mexico, accompanied by their cousin, Shirley Schuerman, and Private Reed and Melvin Becker. Melvin is with the coast artillery at Camp Callan near San Diego. Fortunately both boys had the day off.

Violet Koeppen becomes bride of Martin Schuett

Miss Violet Koeppen became the bride of Martin Schuett in a beautiful candlelight ceremony held at West Northfield Lutheran church Saturday evening, June 21, at 7:30 o'clock, the Rev. Walter Fechner officiating. Violet is the second daughter of Mr. and Mrs. William Koeppen of Wheeling and Martin is the only son of Mr. and Mrs. Frank Schuett of Glenview.

Violet wore a gown of white dream satin with a sweetheart neckline ruffled in lace, with long fitted sleeves coming to a point above the top of her hand. She wore a long train and a blusher, hung from a Victorian crown. Her necklace was a double string of pearls and she carried a showering bouquet of white roses and sweet peas.

Her sister, Mrs. Willard Schuler, served as matron of honor. She wore powder blue velvety chiffon, with a sweetheart poke to match and carried a showering bouquet of gladioli and delphinium, as did the bridesmaids. The bridesmaids were Mrs. Bud Sanders, cousin of the groom, the Misses Myrtle Kritch and Marion Sander, cousins of the bride, and her friend, Miss Erna Koelper. They were dressed alike in pond lily velvety chiffon. All of the bride's attendants wore heart shaped lockets, a gift from the bride. The bride was given away by her father, William Koeppen, Sr.

Willard Schuler served as best man. The ushers were Bud Sanders and Elmer Metz, cousins of the groom and Bernhardt and Andrew Koeppen, brothers of the bride. The men wore tuxedos with boutonnieres of white gardenias or carnations.

The bride's mother wore a blue crepe dress and the groom's mother wore blue lace and both carried white accessories. They wore corsages of gardenias as did Mrs. Fred Koeppen, the bride's grandmother.

Bible school proves boon to 50 children

Over fifty children attended the Union Vacation Bible school held during the past two weeks at the Presbyterian church.

This was the sixth annual vacation school sponsored by the local church but was the first school conducted cooperatively with the Northfield U. E. church. The school was directed by the pastors of the two churches, who were assisted by three of the local church school teachers, Mrs. Hy. Mayer, and the Misses Marilyn Miller and Betsy Dickhoff and several of the older girls who acted as helpers to the teachers.

A program of worship, Bible study, handicraft and games kept everyone happily and profitably occupied.

A picnic to which mothers were invited was held on the closing day. The weatherman cooperated 100 per cent and a morning of happy fellowship was spent on the old school grounds. Tables were set under the trees for the lunch to be spread at noon.

Once again the vacation school has proved its value in the program of the church.

Wheeling days needs support

Are you a booster for the 14th Annual Wheeling Day celebration? The loyal support of every resident of the community is needed to make the celebration a real success. Invite your relatives and friends to come to Wheeling on July 19 and 20.

One of the most popular booths each year has been the advertising booth. Donations to this booth carry a double advertising value, first for the individual contributor and second for the community. Don't wait to be approached, but plan now to have a place in the advertising booth.

Youngsters will be glad to know that the Tiltawhirl and Merry-go-round will be doing business as usual. Begin now, if you haven't started before, to boost the annual celebration of the old home town.

Girl scouts enjoy three day camp at Denoyer cabin

Thirteen members of Wheeling Troop Girl Scouts enjoyed a three day camp last week, which was held at the Denoyer Cabin. The girls arrived at the camp just before lunch on Monday and left following breakfast on Thursday, after three busy and happy days.

Although the camp site was close to home, the camp program and camp atmosphere compared very favorably with the larger established camps, and through the courtesy of the captain, Mrs. L. P. Denoyer, was offered to the girls free, their only expense being their food. As many of the girls were interested in campcraft and outdoor cook badges they planned to prepare their food over outdoor fires and serve their meals out of doors.

The weather man cooperated nicely and only two meals were eaten indoors, during the three days. A court of awards was held on Wednesday evening, to which parents and friends were invited. The flag lowering ceremony opened the program.

Scouts Jane Fortman and Alice Jean Bilhorn were invested as tenderfoots, Ruth Hanselman received her rank as second class scout, and her sister, Lois, was awarded the rank of first class scout, the first member of the troop to win that honor. With the exception of Jane, these girls are out or town members of the troop.

Other local troop members who received badges were Selma Kraus, Betty Jane Graff, Hazel Hipp, Shirley Wieder, Alice Ortegel, Barbara Haben, Betty Frank, Polly Person, Ingrid Nielsen and Jeanette Beck.

Badges awarded included, Campcraft, outdoor cook, tree finder, foot traveler, needlecraft, musician and designer.

Following the court of awards which was held around the outdoor campfire, the assembly adjourned into the cabin where refreshments were served. The camp program closed the meetings of the troop for the summer, but the girls will continue following badge projects during the summer and regular troop meetings will be resumed in the early fall.

AAA Wheat Quotas

the treasurer of the Cook County AAA committee at a place and time designated by the committee.

Under provisions of the wheat marketing quota law, the farmer who produces wheat in excess of his farm quota has the choice of: (1) paying a penalty of 49 cents a bushel on this excess; (2) storing the excess wheat in accordance with regulations, thus postponing the payment of the penalty; or (3) delivering the excess to the Secretary of Agriculture, who will divert the grain for use in relief programs, either in this country or abroad.

Marketing quota regulations as previously drawn up provided that the farmer who chose to deliver his excess wheat to the Secretary must first deliver the wheat to an elevator or warehouse, obtain a receipt, and then deliver the receipt to the treasurer of his county AAA committee.

In an amendment to the regulations, announced here today by Carl Bormet, chairman of the Cook County AAA committee, the producer who shows to the satisfaction of the county committee that it is impracticable to deliver the excess wheat to an elevator or warehouse and obtain a receipt therefor, may avoid penalties by delivering such wheat to any point in the county designated by the committee and at such time as the committee may designate.

Mr. Bormet said the revision in the regulations was made necessary when certain Southwestern elevator and warehousemen refused in some cases to accept wheat on the grounds that it was not in good enough condition to store, or that it was of such low grade that facilities were not available for handling.

A change in the game code provides that the squirrel season in the northerly zone extends from Sept. 1, until Nov. 15, instead of opening Aug. 1st, as last year. Another change is the "kill card" attached to each license, and bearing the license number, upon which each hunter is required to make a report. Section 53 of the game code specifies: It shall be the duty of each and every person taking game birds, migratory game birds and game animals to make a report to the department, of all species, numbers and the county where such species were taken, not later than Jan. 15, following the close of the hunting season. A minimum penalty of \$10 is provided for failure to report. The fee for the licenses remains the same, \$1.50 for the resident license.

Wheeling landmark destroyed by fire

One of the few remaining landmarks of Wheeling was badly damaged by fire when the Wheeling Feed Mill was turned into a raging inferno a few minutes after a gasoline torch exploded last Wednesday afternoon. Delver Dever, who assisted his brother-in-law, Henry Reeb, in operating the mill, was starting the engine when the torch exploded. He threw the torch from the building, but the burning gas had already done the mischief. Mr. Dever attempted to smother the flames with grain bags, but they spread so rapidly he was forced to flee for his life. The volunteer fire department responded promptly, but the entire building was already enveloped in flames. The firemen soon had the fire under control when they turned the four powerful streams of water onto the burning building. The building was badly charred throughout, and the Reeb's have not yet decided whether they will rebuild. The extent of the damage to the machinery, which included a valuable Diesel engine, has not yet been de-

WHEELING PRESBYTERIAN
CHURCH

Morning worship, 10:55 o'clock.

The first meeting of the Wheeling P.-T. A. for this term was held on Monday, with the president, Troy Lee, presiding, and 25 members present. The objects of the Parent and Teacher association were presented and a chapter from the manual was read on the subject of "Character and Spiritual Education". Spiritual education was defined as "teaching a belief in God, emphasizing spiritual values and creating an active faith in what has been termed, the permanent good." Since statistics show that over 16,000,000 children in the U. S. A. receive no regular religious instructions it should be the concern of every P.-T. A. to cooperate with the home, the school and the church to supply this lack and preserve for youth their rightful heritage, that they may be able to meet the future with hope and confidence. A musical program followed the meeting featuring a guest musician, Miss Constance Koebelin of Deerfield. Miss Koebelin, who is a junior at Highland Park high school, is accomplished both at the piano and the viola. The two viola solos played by Miss Koebelin were "Minueto" by Bakalemikoff and "Ave Maria" by Schubert for which she was accompanied on the piano by her mother, Mrs. Edwin Koebelin. The piano solo numbers included "Scherzo" by Chopin and "Malaguena" by Lecuona. The instrumental numbers were interspersed with vocal solos by the chairman of the entertainment committee, the Rev. D. C. Morrison. Mr. Morrison sang four old favorites including "The Rosary," "My Wild Irish Rose," "Silver Threads Among the Gold," and "When You and I Were Young Maggie." Refreshments were served at the close of the meeting.

Wheeling ladies discuss U. S. relations with Latin America

Thirty-five ladies met at the Presbyterian church Thursday afternoon for the annual fellowship luncheon of the Ladies Society of the church. Following the luncheon an informal hymn sing preceded the program for the day, which presented the work of the church in Latin America.

Six members of the society participated in a travelogue taking the group to the six countries in which their denomination has a special responsibility which included Mexico, Guatemala, Colombia, Venezuela, Chile and Brazil. Songs popular in two of these countries were sung as solo numbers by the pastor.

A most appropriate climax to the program came unexpectedly in the arrival from Texas of the Rev. P. Morrison, brother of the pastor. By unanimous request he gave an impromptu talk on relations between the U. S. A. and her nearest neighbor to the south, Mexico, based on actual experience.

Since residing in Texas he has been actively engaged in the work of the American Legion covering a large territory, where he has helped to remove racial and national restrictions which have proven a barrier to friendly relations with our southern neighbors. He spoke convincingly of the need for more Christian attitudes if the U. S. is to win and hold the good-will of the people of Latin America.

Jimmy Skunk adopts new neckwear

A new style in neckwear among the wild-life in Wheeling was seen last week when Jimmy Skunk dressed himself in a glass collar.

Residents on Dundee road at Wille Avenue, Wheeling, were attracted by the barking of dogs at an unusual clicking on the pavement about 10:30 o'clock one evening. Investigation revealed Jimmy Skunk patrolling the highway with his head in a glass jar.

Aside from calling off the dog no attempt was made to free the distressed animal for fear of lack of appreciation on the part of the skunk. Finally he left the pavement, crossed the walk and struck the lower step of one of the homes, when the jar broke, leaving his head free. With the rim of the jar still around his neck he sauntered away across a vacant lot.

The pieces of glass left behind showed that it was "Jimmy's" fondness for peanut-butter that had led him into the predicament.

Rockenbachs celebrate 50th anniversary

Mr. and Mrs. J. Albert Rockenbach recently celebrated their golden wedding with a quiet home celebration. The Rockenbachs were married in North Northfield Sept. 24, 1891.

They resided on farms in the community until their retirement about 20 years ago when they came to make their home in Wheeling where they purchased the Dr. H. A. Benz residence.

They celebrated the 50th anniversary Wednesday, Sept. 24, with a family dinner. Those present included Mr. and Mrs. Elmer Thompson and children and Miss Belle Rockenbach of Chicago, Mr. and Mrs. Edwin Peters, Mr. and Mrs. Aug. Peters of Harvey, Ill., and Mr. and Mrs. Arthur Ortegell and daughter, Alice, Miss Ruth Rockenbach and Roger Jr. of Wheeling.

The only one of their children who could not be present was their son, Roger, who is employed in Wisconsin. After dinner they spent a pleasant evening visiting. A son-in-law, Mr. E. Peters, took moving pictures of the happy occasion.

The honored guests received many lovely gifts and congratulations.

Help us not to slight any of the boys by turning in any special word you receive from your sons and brothers in service such as promotion in rank, change of work or camp, adventures of special interest either in connection with the service or while on leave.

Says

With the season at the half-way mark in the Northeast conference, we find that only one official Northwest game has been played. Antioch beat Grant 19-0 two weeks ago. This week, however, the schedule calls for two league games with Barrington host to Antioch and Grant playing at Northbrook. To our way of thinking the Bronchos will upset Antioch and go on to win the Northwest title. The way we dope it the order of finish should be Barrington, Antioch, Northbrook and Grant.

Cards Meet Leaders

It looks like we certainly went out on a limb in picking the Arlington team to win the Northeast crown especially after Saturday's rushing defeat at the hands of Lake Forest. The Cards have not won a game in three conference starts and will have to stage a complete reversal of their previous performances to be in the ball game with the hard hitting Warren eleven this week Saturday. We cannot do anything but pick Warren on past performances.

Three Teams in the Running

it seemed that the Bears must be a team of supermen. All this against a Card team which is without doubt better than the one which beat the Bears last year when they won the pro championship. No matter what the score may be it is a real thrill to watch the Bears perform. They have the greatest football combine of all time. Their next five games are at home with Detroit the opponent this coming Sunday.

More Talk With Kirby

John Kirby of Bensenville was going to make us eat our words about saying that Bensenville would be at a disadvantage playing 11 man football at Barrington. The score indicates we didn't need to do it. Kirby says that Bensenville is going to get a varsity basketball victory over Palatine this coming season. We hope to make him back down on that one also. Bensenville is expected to have one of the better teams in the conference this year with Gutnik, Buman, and Custer returning from the team of 1940-41 and with some excellent lightweight material to draw from. The Bisons are scheduled in an early home and home series with Arlington, the first meeting of these teams since the Conference break up four years ago.

Palatine to Lose Good Player

Not only has Palatine's varsity team of last season graduated but two of the better prospects for 1941-42 have left or will soon leave Palatine. Cramer, a lightweight letterman two years ago who was out with an injured knee last year, was expected to play forward. He was over six feet and good lefty. He has moved to California. A greater loss will be Paul also who will move to Des Plaines two weeks hence and enroll at Palatine township high school. Paul played forward on the team

BISONS Fall to Barrington Saturday, 27-6

Barrington's defeat of Bensenville 27-6 Saturday gave ample proof that the basis of successful football is good line play. The defeated Bisons were used to a six man game in which line play was at a minimum. Barrington's forwards had it all over the Bisons. They rushed so hard that Bensenville's passer could not get away a single completion and they stopped many running plays before they could get underway.

The Bronchos of Barrington scored one touchdown in each quarter and piled up 13 first downs to the Bisons' five. Bensenville scored in the second period on a 78 yard run by Audas.

The first time Barrington touched the ball they marched 73 yards in 10 plays to score. Runs of 35 and 17 yards by English featured the drive. Hager scored from the 47 yard line and Pietsch place kicked the conversion. In the second period the Bronchos scored again. This time a 56 yard drive was completed

Private Melvin Becker arrived home from Oregon last Friday for his first visit home since entering the service last spring. The Honolulu Studio party, held in Rand Park, Des Plaines, last Saturday proved very successful in spite of a foggy evening and a preceding rainy day. Over 100 pupils and friends attended and they had such a good time that another party is being planned for next month. During the latter part of the evening eight cash prizes ranging from \$1 to \$5 and totaling \$15 were awarded pupils: Alice Ortegali in Wheeling, Olga Stieff near Buffalo Grove, Melvin Berlin at Palatine and Marie Metzler near Lake Zurich were winners from this vicinity; the other prizes went to students in Des Plaines, Westmont, Grayslake and Deerfield.

The annual autumn concert of the Northwest Guitar and Accordion clubs is slated for Des Plaines this year and will be held at the Lutheran school auditorium probably on Nov. 21. Music teachers with whom I have talked this year tell me that their Fall classes are larger than usual and some are even getting to the point where they must refuse pupils. This is the kind of situation that gives a beginning teacher a good start and that's swell; but unfortunately there are many who start teaching with no actual training or experience and they can do more harm in a few weeks than a good teacher can overcome in a year or more. Check up on your teacher before you start lessons and make sure his or her training includes teaching; you may regret it if you don't!

Belief in religion is America's power. Dr. Meier broadcasts

America's greatest source of power is the millions of its citizens supporting the Christian religion, Dr. Walter A. Maier of Concordia Seminary said Sunday in opening his ninth series of Lutheran broadcasts over a coast-to-coast network.

"Europe is paying a terrible price for its neglect of Christ," the radio evangelist declared. "The Nazi system in Germany has sought to make the church a servant of the state. It has restricted religious liberty and sought to coax the youth away from the Christian altar. Russia has closed churches, prohibited religious instruction and mission work, banned church papers and exiled or executed many faithful confessors of Christ."

The Lutheran Hour speaker quoted from a Paris newspaper an editorial which said, in part: "We are going to pay for 60 years of de-Christianization, falling birth rates, decline into paganism and materialism. We have worn out the patience of Providence; we have disgusted the good God Himself."

The most tragic waste in America, Dr. Maier added, is the far-reaching neglect of the Bible and he pleaded for "nation-wide repentance and reawakening to Bible truth, and the dedication of American pastors to Christ-centered sermons and a Christ-directed philosophy."

Christian Science

Entitled

Christian Science: The Religion of Comfort and True Friendship

by

Oscar Graham Peeke, C. S. B. of Kansas City, Missouri

Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts

Christian Scientists regard the Bible as their guide to that true state of existence about which Jesus so loved to teach. The opening chapter in that sacred volume records God's spiritual and only creation; also it is there indicated that God intended that man's existence should be inestimably grand and idealistic, for the statement is made that God created man in His own image and likeness, and that He gave man dominion over all the earth. The teachings of Christ Jesus and of Christian Science amplify that statement, and unfold its infinite meanings. These teachings are humanity's beacon lights; they need to be understood. They show us how to live healthfully, happily, peacefully; how to establish true and lasting friendships, how to live in the comfort of God's abundant goodness.

In the light of Christian Science it is seen that mortal, material existence is a dream of life, substance, and intelligence in matter, and that it is therefore separate from, and unknown to God. The textbook of Christian Science, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, makes this quite clear to those who study it in connection with the Bible. We learn from these books how to awaken from the mesmeric belief of material living. In this textbook Mrs. Eddy states (p. 14), "Entirely separate from the belief and dream of material living, is the Life divine, revealing spiritual understanding and the consciousness of man's dominion over the whole earth. This understanding casts out error and heals the sick, and with it you can speak 'as one having authority.'"

Christian Science Healing

In Christian Science healing the basis of thought must always be perfect God and perfect man. Having this basis of perfection, the purpose of Christian Science extends far beyond the healing of physical disorders. The principal part of its work is to lead humanity out of the darkness of sinning sense, into the light and joy of God's kingdom, here on earth. Naturally, healing sickness, restoring the so-called incurably diseased and dying to lives of usefulness, is a great and necessary step in this direction, for much bodily discord is brought on by sinful living; and healing is accomplished by overcoming the errors in the human consciousness which cause such discord. All discordant conditions, of whatever nature, are due to wrong thinking of some sort. Even many of the medical doctors are admitting that today.

Christian Science has nothing in common with any curative system in which the human mind is a factor. The human mind cannot heal. Its use, either as will power or suggestion, can only effect a temporary cure; and the last state of the patient is worse than the first. Such so-called healing was spoken

The most tragic waste in America, Dr. Maier added, is the far-reaching neglect of the Bible and he pleaded for "nation-wide repentance and reawakening to Bible truth, and the dedication of American pastors to Christ-centered sermons and a Christ-directed philosophy."

The method in Christian Science is the same as that made use of by the Master. The Christian Science practitioner must always discern, in place of a sick mortal, the perfect man, spiritual and immortal. If his thought is clear enough to do this, he will readily heal the patient. The spiritualized consciousness which discerns and mentally declares the spiritual reality of man's being acts powerfully on the sick mentality, uncovers and drives out the mental error and restores harmony to the body.
