BOARD MEMORANDUM

October 16, 2007 Board Meeting Agenda Item

To: Board of Commissioners

From: Elliott F. Becker, Director of Finance and Business Operations

Through: Administration Committee
Jan Buchs, Executive Director

Re: Capital Replacement Plan — Recommendation

Background/Analysis

At the Special Meeting of the Administration Committee on September 18, 2007, staff presented a list of all capital assets owned by the Agency and a schedule for when those items would likely need replacement (attached). To the best of staffs knowledge, the listing includes everything, with the exception of replacement data for HVAC-related equipment. Staff is awaiting supporting documentation from a vendor who should be providing this data shortly.

A Capital Replacement Plan serves as a great tool for staff in managing both annual and long-term capital needs, and will be the primary support for the Capital Replacement Fund. Additionally, the Distinguished Agency reviewers will be looking for such a plan, as it is considered a basis for an agency wanting to show strong fiscal controls. Finally, the Government Finance Officers Association recommends that staff prepare, and Board approve, a Capital Replacement Plan no less frequently than every two years.

Supports the Following Strategic Initiatives

111 Quality Guest Services and Experiences
Z Long-Term Financial Strategies
Z Continuous Learning Environment
O Improvements in Processes & Systems
El Developing Community Relationships

Action and Motion Requested

Move to approve the Capital Replacement Plan and include said plan in those documents to be reviewed by staff, as well as the Distinguished Agency reviewers.
