Always Expect the Unexpected

Real estate can't suddenly be pulled from a hat. For most of us, ownership of real estate is the crowning achievement for years of labor, saving and planning. Yet, real estate, as solid as it is, can elude our grasp in a moment.

Be prepared for the unexpected. Plan a complete coverage insurance program that will enable you to hold your property regardless of unexpected events.

Several years ago, Illinois farmers organized three strong, legal reserve insurance companies to provide complete low-cost, insurance protection for farmers. Today, these companies are serving thousands of Farm Bureau members throughout the state.

Country Life Insurance Company has a policy to fit your needs. One policy in particular, the Country Life Home and Family Protector contract, offers the families of mortgaged land owners an opportunity to pay off the mortgage

should the head of the family not live to do it. Other policies offer funds for future delivery... for education, travel, retirement, protection.

Court records show many cases in which land owners lost property because of judgements issued against them following auto accidents. Be sure you are protected against loss with an Illinois Agricultural Mutual Insurance Company policy on your auto. You can get protection against loss from fire, theft, collision, public liability and property damage.

Fire, wind and hail storms can, and too often do, reduce the value of real estate. Protect yourself against loss from these causes. Insure with Farmers Mutual Reinsurance Company.

These companies are operated on a cost basis for the benefit of policyowners.

What P. M. A. Means to this Community

Each year nearly \$20,000,000 is paid to members of Pure Milk Association for their Milk. Yes - twenty million dollars a year in milk checks.

PMA members in Cook County spend most of their share of this sum in the local trading area.

Pure Milk Association takes off of the shoulders of individual farmers -

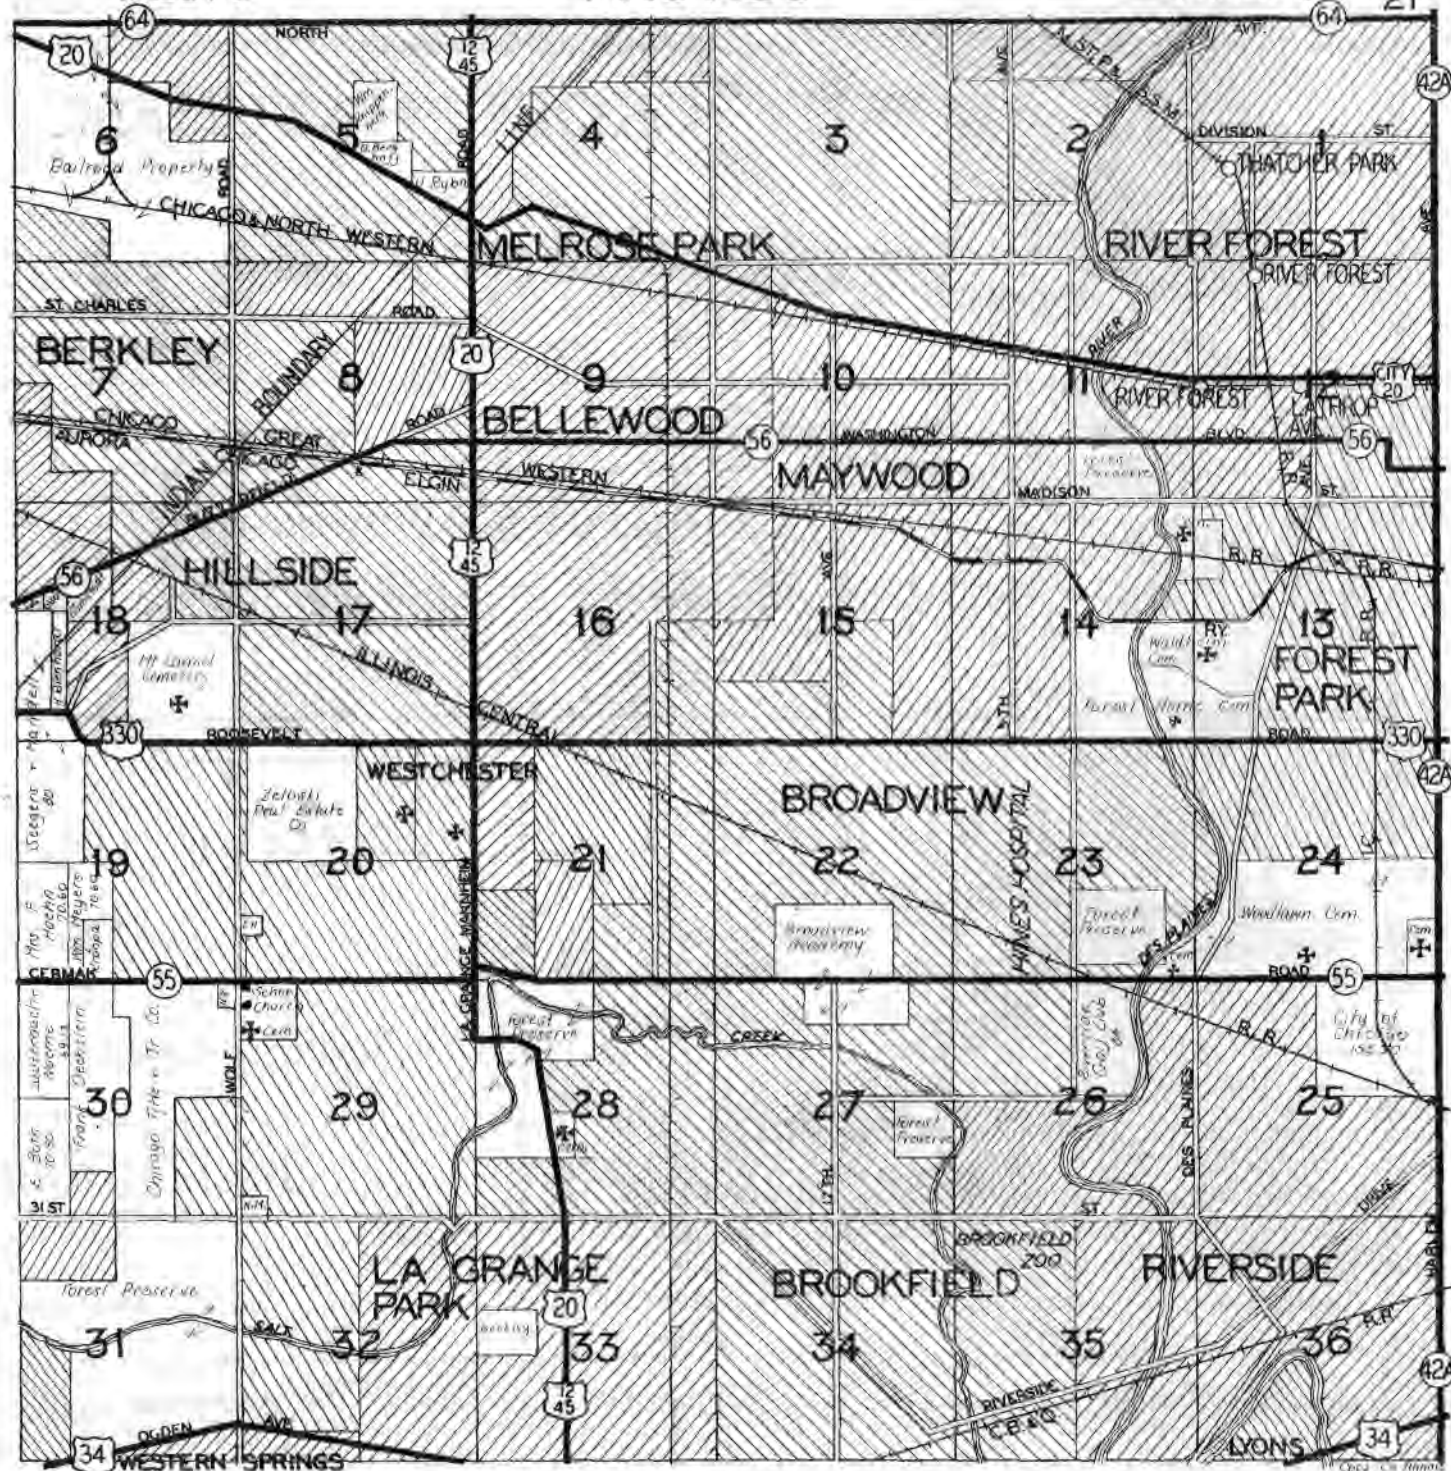

- the worry about a market for their milk
- the credit risk involved in selling milk
- loss of income while shut off the market because of contagious disease on the farm

These things make for STABILITY and REGULARITY of INCOME to DAIRYMEN

PURE MILK FARMS are owned or operated exclusively by members of Pure Milk Association who work consistently to produce high quality milk.

Under our Title Guarantee Policy, legal defense of title as guaranteed is at our expense . . . *not the owner's!*

The owner of real estate wishes to be protected from ANY form of financial loss connected with his title. To him the loss is equally real whether it consists of an outright payment to settle a claim or the legal expense of defending his title against attack. Winning a suit is small consolation if the cost of litigation comes out of the property owner's pocket.

A Title Guarantee Policy brings complete freedom from financial liability or worry. If the owner's title as guaranteed should ever be challenged, Chicago Title and Trust Company instantly stands ready to defend it . . . assumes all legal expenses . . . and in case of loss, promptly pays. No other form of title protection gives such complete security against loss and worry.

Back of our Title Guarantee Policy is the stability and financial responsibility of this experienced 93-year old organization.
